Councillor Initiative

1. What is the Initiative?

The Assembly Hall provides high quality entertainment events for the community, and requires audio equipment between sound/light technicians and performers back stage in order to enable professional coordination of technical support for shows. 3 Sennheiser industry standard headsets and a customised back stage/front of house communications system are required to make this possible.

2. Where is the initiative taking place?

Melksham Assembly Hall.

3. When will the initiative take place?

As soon as funding is available

4. What are the Community benefits/evidence of need/desired outcomes?

The Melksham Assembly Hall hosts a range of events including movies, live screenings and shows. The live shows feature comedians, celebrity speakers, musicians, dance and drama performances, all of which require communication between performers and light/sound technicians. A professional and efficient system of communication will ensure that all attendees of events at Melksham Assembly Hall will have a first class entertainment experience in a highly professional venue, which is a showpiece of Melksham Community. This not only benefits the people attending events, but raises the profile of Melksham as a centre of cultural and recreational excellence.

5. Who will Project Manage/be responsible for this initiative?

The Assembly Hall is managed by Melksham Town Council, who will ensure the success of the initiative.

6. Costs/quotes/ match funding?

The request is for £1200.

7. Additional information

.
