

Review of Local Transport Plan Car Parking Strategy

What is a Local Transport Plan (LTP)?

LTP's aim is to steer the development and implementation of national transport policies at the local level. The third Wiltshire LTP is currently being developed for final publication in March 2011.

What's the role of a car parking strategy?

A strategy that deals with the supply and management of car parking can be one of the most useful tools available to local authorities in helping them achieve their economic, social and environmental objectives. In particular, a car parking strategy can:

- support the local economy and the vitality of town centres;
- encourage sustainable travel modes and help reduce reliance on the private car;
- enhance the look of streetscenes and the built environment;
- meet residents' needs for car parking near their homes;
- improve journey time reliability for road users by reducing on-street parking contraventions;
- reduce wasteful competition between towns based on parking charges;
- raise revenue for the Council to reinvest in transport services and measures;
- make Wiltshire a safer place through well designed and managed car parks;
- provide essential access for special needs groups and the mobility impaired; and
- improve the efficiency of the Council's parking service.

Why review the car parking strategy?

The Council's current car parking strategy dates back to 2000 and now needs to be reviewed to reflect changed circumstances. Not least of these changed circumstances is the move to Wiltshire Council and the need for parking charges and standards to be broadly consistent across the whole of the county.

What's in the reviewed car parking strategy?

The Council commissioned its consultants Mouchel to undertake the review and their main report includes chapters on parking policies, parking charges, residents' parking zones and parking standards.
