Roy,

Please find below correspondence received from Richard Sharland of Ian Sharland Limited.

He has confirmed the schedule of works in the acoustic report have been complied with.

I trust this is acceptable but should you have any questions please do not hesitate to contact me.

Kind regards

Mike, further to our conversation on Friday, may I confirm the following.

I have inspected the building on completion of your works, both by myself and with the Environmental Health Officer. All of the works recommended in my design reports, with subsequent revisions to reflect the changes in layout/operation, have been fully implemented, and that there are no further works outstanding.

Our joint inspection with the Environmental Health Officer then set noise levels for the PA system, upstairs and down, which were deemed to be acceptable in respect of the neighbouring amenity.

On that basis, I conclude that the acoustic works to the club are now complete.

I hope that this is self-explanatory but please do not hesitate to contact me with any further queries.

With best regards

Richard
