Dear Mrs Kemaneler

Licensing Act 2003 – Variation Application – Eastern Chillout, 99 Fisherton Street, Salisbury, SP2 7SP

I have been asked to clarify some points in your application they are as follows:-

Under Section E Live Music and Section F Recorded Music under Non Standard timings there are several entries for days but no times shown.

Under Section G you have put we wish to be able to have ad-hoc performances when requested by parties this should either be removed or specify times when this is anticipated.

Just to confirm that Indoors refers to the buildings and not the Marquees.

Please respond as soon as possible to enable me to update the application and pass on to the consultees many thanks.

Kind regards

Subject: Premises Licence Application - Eastern Chillout, 99 Fisherton Street

Dear Debbie and Ian,

I write concerning the application to vary the premises licence for Eastern Chillout, 99 Fisherton Street.

I regret that we have serious concerns regarding the licence application. Our concerns are specifically related to the following elements of the application.

1. To allow late night refreshment to be provided in the garden area and "Barn." For clarity the name "Barn" may cause a misunderstanding for some people reading the application. It is essentially an outbuilding to the rear of the premises with one side entirely open.
2. To allow regulated entertainment, in any form and including dancing, to take place in the "Barn"
3. To allow recorded music to be provided outside in the garden area
4. To allow speakers to be installed in the smoking tents in the garden area and allow recorded music to be provided there
5. To extend the times for regulated entertainment inside the premises without putting in place reasonable, and necessary, measures to prevent that entertainment from causing a nuisance. The current operating schedule and application to vary the licence do not put in place any specific measures which would prevent entertainment noise from inside the premises from causing a nuisance. Such as ensuring windows and doors are kept closed when regulated entertainment is taking place and ensuring an acoustic lobby is in place on the rear exit to the garden / Barn area.

As you know the Barn and garden area to the rear of the premises are almost entirely surrounded by houses. The garden and external area are also very narrow and the houses are very close indeed. In our opinion these factors make the elements of the application referred to above entirely inappropriate for the local area and people living nearby. The noise which will inevitably be created by these activities is likely to cause a public nuisance for people living nearby.

As an illustration of the risks associated with this premises and the proximity of neighbours in late 2012 both ourselves and yourselves were in receipt of complaints from a close neighbour regarding nuisance being caused by entertainment being provided at the premises. That neighbour advised that music noise from the premises was clearly audible in their home and was preventing them from sleeping. Although those complaints have since ceased we understand this was as a result of the cessation of entertainment being provided outside the premises.

On the basis that the application is likely to cause public nuisance we recommend the application be refused.

If you have any questions or wish to discuss this further please let me know.

Informative

1. For the purposes of this licence, 'the restaurant area' is not to include any outside area, the tents, or the additional structure known as 'the barn'.

Reasons

The Sub Committee considered that the modifications to the premises licence as set out above would enable the licence-holder to expand and develop the range of facilities offered to patrons, whilst seeking to protect the amenity of nearby residents. In particular the Sub-Committee were concerned at the likely disturbance of residents by live and recorded music late at night and for that reason did not approve the requested addition of recorded music as a licensable activity (other than in the limited circumstances allowed); the increase in hours of live music; or the provision of late night refreshments other than in the restaurant area. The Sub-Committee accepted the comments of the Environmental Health officer that the acoustic properties of the restaurant area had not been significantly improved since noise complaints last year. They also accepted that the acoustic properties of the barn were inadequate, or at best untested, and that the tents would not contain any noise at all.

The Sub-Committee accepted that performances of belly-dancing needed to be accompanied by recorded music and therefore agreed that such music could be permitted, in the restaurant area, during the limited hours of those performances on Friday and Saturday evenings. They also felt that both live and recorded music would be acceptable on non-standard days.

The Sub-Committee saw no reason to restrict the presence of persons under 16 on the premises, but accepted the need to have appropriate CCTV in place, to prevent crime and disorder.

In reaching its decision the Sub Committee has considered the relevant provisions of the Licensing Act 2003 (in particular Sections 4 and 35); the guidance issued under Section 182 of the Act and the Licensing Policy of Wiltshire Council.

Evidence

The Sub-committee heard evidence from Mrs. Kemaneler, the licence-holder. She explained the nature of the business currently operated at the Eastern Chillout and how they wished to offer more services to their patrons, including being able to cater for weddings. She said that works had been carried out to the barn to improve its acoustic properties and that advice had been taken from an acoustic engineer. They had had a live music event last year at the premises which had led to complaints. Since then that had been no further events.

A L a

Mr. McMillan, for the Environmental Health Team, explained the concerns that his Team had with some of the proposed variations to the licence. There were residential properties very close to the premises and the occupants of those properties would be disturbed by both music noise and by the noise of people talking in the garden area late at night. The tents were particularly near to other properties and, in his view, it was inconceivable that there could be music in the tents that would not be audible beyond the premises. He had not seen details of any acoustic works to the barn, but in any event, would be concerned at the inevitable escape of music from the buildings, when doors were opened.

Right to Appeal

All parties have the right to appeal to the Magistrates' Court within 21 days of receipt of this decision.

Garrod, Ian

To: Garrod, Ian
Cc: Hodges, Katherine
Subject: Application to Vary Premises Licence for Eastern Chillout

Dear Ian

Re: Premises Licence Application for Eastern Chillout

I write on behalf of the Environmental Control and Protection Team to object to the granting of the variation of the premises licence at the above premises. We recommend this application be refused because we are of the opinion that some of the changes are likely to lead to public nuisance for people living nearby. The application is therefore not in accordance with the "prevention of public nuisance" licensing objective.

We have visited the premises and been in email communication with the applicant about our concerns. Potential solutions have been suggested but the applicant has not accepted them. I will explain our concerns in more detail below.

1. Function Room (The Barn)

This department continues to have significant concerns regarding the use of the 'function room' for regulated entertainment. The function room is attached via a party wall to a residential property. There are also residential properties to the north and west of the building less than six meters away. Should live or recorded music be played for entertainment in this room the noise is likely to have an adverse impact on residential amenity nearby and cause a public nuisance.

It is noted that sound proofing is currently being installed in the function room. However, we have no evidence to show whether this sound proofing will be adequate to protect residents of the surrounding properties from experiencing excessive levels of noise. This department has experience of investigating complaints about noise emanating from similar structures at other premises in similar locations.

This application to vary the licence, if accepted with no changes, would permit live and recorded music to be played in this function room 12:00 – 23:00 Sunday to Thursday and 12:00 to 00:00 Friday and Saturday. It has to be considered that if this variation was granted, and should the business demand it, the new licence would permit music to be played in this room seven days per week until late in the evening.

It should also be noted that the current planning permission for the premises includes a condition restricting the use of the function room. The condition dictates that there should be no sound-amplifying equipment, loudspeaker, or public address system operated or live or recorded music played or entertainment provided within the function room. This condition was attached to the planning permission on recommendation from this department. If the applicant wished to carry out these activities in the function room they will need to make an application to the planning department. If these activities are carried out in this room without the appropriate planning permission the Development Control department may investigate and take formal action if appropriate.

For this department to consider supporting any change to the planning condition or changes to the times regulated entertainment are licensed to take place in this room we would need to see evidence to show that noise making activities in the function room will not have an adverse impact at residential properties adjoining or nearby. The applicant has been advised of this.

2. Main restaurant

The applicant is requesting an increase in the hours that music to be played in the main restaurant. The current licence permits live music to be played Friday and Saturdays 20:00 to 23:30 and recorded music, when in conjunction with the performance of dance, from 20:00 to 21:30 Fridays and Saturdays. This application looks for both live and recorded music to be performed Sunday to Thursday 12:00 to 23:00 and Friday and Saturday 12:00 to 00:00. The existing licence limits recorded music to only be played in conjunction with the performance of dance. We would not support a change to this restriction at this time.

We have concerns that without careful management these changes could result in a public nuisance to people residing in properties to the front, rear and adjacent to this premises.

The application includes the implementation of a lobby to the rear of the premises. This will help in mitigating sound escaping if it is managed properly. It has been suggested to the applicant that their application be altered to include in the operating schedule measures to manage noise associated with regulated entertainment in the main restaurant. The measures suggested were for doors and windows to be closed except for access and egress and for frequent monitoring checks to be made outside of the premises to check the sound levels when regulated entertainment is taking place. Unfortunately the recommendations have not been taken forward. This department can therefore not support this aspect of the application.

3. Garden, tents and gazebos

The existing licence permits the four tents in the garden. This variation will permit the tents to be on the western boundary of the garden rather than the eastern. We do not consider that this change is likely to have a significant impact on the noise levels experienced at residential properties nearby. However, the use of these tents must be carefully monitored and managed to avoid complaints being made about noise from the people using them. It should be noted that there is a planning condition attached to the permission for this premises restricting the use of gazebos to 08:00 to 23:00.

The current licence prohibits regulated entertainment in the garden, tents or gazebos this department would not support a change in this restriction at this time.

Smoking legislation: Smoking should not take place in tents or gazebos which have more than 50% of their area enclosed. The tents and gazebos detailed in this application all have more than 50% of their area enclosed and smoking should not take place inside them.

These outside structures must meet relevant standard of fire resistance and do not compromise the existing means of escape.

This department has no objection to the changes in internal layout of the restaurant or function room. However, given the nature of the area, structure of the buildings and proximity of residential properties nearby the changes to the times that regulated entertainment can take place in this premises are not appropriate. We consider that these changes are likely to result in a public nuisance and we therefore recommend that this application is refused.
