

Area Board Priority Setting and the Community Area Joint Strategic Needs Assessment Report

1. Community Area Joint Strategic Needs Assessment (CAJSNA) Overview

The CAJSNA brings together a wide range of indicators from various sources, and the analysis of these measures builds a picture of Wiltshire's 18 community areas. Indicators and their analysis are grouped and presented across 10 themes:

- Population
- Economy
- Housing
- Health
- Environment
- Communities
- Cost of Living
- Safety
- Older People
- Children

The CAJSNA builds on the key themes which emerged from the overall Health and Wellbeing JSNA in 2022. It highlights children and young people, cost of living, mental health and emotional wellbeing and older people. A bespoke infographic pack, presenting the key indicators surrounding these themes has been developed for each of the 18 community areas.

Other indicators, enabling comparison between community areas, are presented via tables, charts and explained via narratives. Demographic data for the 18 community areas has been made available via an accessible, interactive dashboard.

The CAJSNA enables the local Area Boards and partner organisations to make informed decisions on the allocation and focus of their resources. It aims to improve local understanding of need in order to better address health inequalities and empower voluntary and statutory organisations to support our residents to lead full, health and enriched lives.
