### **Decisions made against officer's recommendation**

#### **06/02784/OUT – Recreation Ground, Berkshire Green, Melksham**

Officers recommended the above application for permission. However, the Committee resolved that permission be refused for the following reasons:

1. The proposal would result in the loss of an open area and visual gap important to recreation, would not respect the streetscene, townscape or landscape character of the locality, would provide insufficient parking, and would detract from the amenities of local residents, contrary to Policies H1, C31a, C38 and T10 of the West Wiltshire District Plan – 1<sup>st</sup> alteration 2004.
2. The proposal would result in the loss of existing play spaces and other recreational land, and it has not been demonstrated that there is an excess of sports provision and public open space in the area, contrary to Policy R2.

### **Amended recommendations/directives**

#### **06/02520/FUL – Land adjacent Semington Bypass, Melksham**

The Committee agreed with the Officer's recommendation, that planning permission be granted subject to the development beginning before the expiration of three years from the date of the permission, including the additional conditions as per the late list: -

10. No site works or clearance shall be commenced until protective fences which conform with British Standard 5837:1991 have been erected around any existing trees, including the oak tree, and other existing or proposed

landscape areas in positions which have previously been approved in writing by the Local Planning Authority. Until the development has been completed these fences shall not be removed and the protected areas are to be kept clear of any building, plant, material, debris and trenching, with the existing ground levels maintained, and there shall be no entry to those areas except for arboricultural or landscape works.

REASON: To safeguard the areas to be landscape and the existing trees and planting within the site

POLICY: West Wiltshire District Plan First Alteration 2004 Policy C32.

12. The proposed estate roads, footways, verges, junctions, street lighting, sewers, drains, retaining walls, service routes, surface water outfall, vehicle overhang margins, embankments, visibility splays, accesses, carriageway gradients, car parking and street furniture shall be constructed and laid out in accordance with the details to be submitted and approved by the Local Planning Authority in writing before their construction begins. For this purpose, plans and sections, indicating as appropriate, the design, layout, levels, gradients, materials and method of construction shall be submitted to the Local Planning Authority.

REASON: To ensure that the roads are laid out and constructed in a satisfactory manner.

22. Prior to the occupation of the site, the Applicants and their successors, shall be required to submit a Travel Plan to the Local Planning Authority for their approval. This Plan shall include details of the number of vehicles visiting the site, their destinations and the routes they will normally take. The Travel Plan should include the aim that wherever possible, heavy goods vehicles should avoid the use of inappropriate roads.

REASON: In the interests of ensuring that heavy goods vehicles are kept off roads incapable of accommodating them comfortably.

POLICY: Wiltshire Structure Plan 2016 Policy T10

06/02532/FUL – Land South of Storridge Road, Westbury

The Committee agreed with the Officer's recommendation, that planning permission be granted, but with an amendment to Condition 14 as per the late list: -
