

A365 MELKSHAM WITHOUT
LETTERS OF OBJECTION/SUPPORT

LETTER FROM	OBJECTION	
Mr. A. Brindle 406A The Spa Melksham	1.	Wishes to see the current “informal” 30mph speed limit formalised. There are two locations where pedestrians and cycles cross the A365 and these need protection. There is continual noise associated with lorry traffic from 5.30 a.m.

Comments

Mr. Brindle’s concerns relate to the section of A365 between Spa roundabout and Falcon Way roundabout where there is a current de-restriction order. This is north-west of the length adjacent to the new development upon which the current de-restriction order is proposed.

The length between the roundabouts remains on the list for consideration when the revised guidance for 40 and 50mph speed limits is received. The points made by Mr. Brindle will be considered at that time.
