

CALNE: WILLIAM STREET AND LUCKETT WAY – TRAFFIC REGULATION ORDER

SUMMARY OF OBJECTIONS

Three objections were received to the Experimental Order.

In summary, these objections relate to:-

- Concern about lorries 'rat-running' through local residential roads.
- Safety concerns because of the presence of local school children on William Street.
- William Street is a heavily congested area (St. Dunstan School, local shops).
- Alternative route via Lickhill Road is more acceptable.
- Lockett Way is too narrow to accommodate construction lorries.
