<p>What is the Community benefit of your project, and approximately how many people will benefit? The project will provide a high quality bike track for Corsham which will give young people opportunities to participate in a new sport or enable those already involved to get better. The current track is in a poor condition and through the renovation of the facility and formation of a bike club there will be greater opportunities to participate in the sport and a focus for young people to put their energies into developing the club.</p> <p>This will help to ensure that young people in Corsham are involved in focused activity, will encourage health and well being and will indirectly assist with community safety issues by providing a high quality facility for use by local people. There will also be an element of skill development and learning through the provision of coaching sessions on the track to help young people improve their riding skills.</p> <p>In the community plan for Area 4 a lack of places for young people to meet and a lack of facilities are key aspects and both these points will be met through this project. The project will be aimed initially at young people in Corsham, for which there is a high level of support, as demonstrated by the signed petition we have organised. However we also aim to raise awareness of the track in surrounding villages and hope to attract people to the track from these neighbouring villages. Indirectly we will be looking to establish a link with the bike track at Bath in order for young people to have access to that track as well as this one. This will enable the better riders amongst us to have access to a better track and will act as a motivation for others to improve.</p> <p>We hope to expand the club and get more people involved in it so that we can then look to provide race events, coaching and other opportunities. At the moment we cannot do this with the state of the track in its current condition.</p>	
<p>NWDC will not meet future running costs for projects. Please tell us how these will be met in the future</p> <ul style="list-style-type: none"> • Corsham Town Council annual revenue budget. • As a new club we intend to look for local sponsorship and are approaching a couple of companies. We also intend to do some local fundraising.

3 – Additional information to support and strengthen your application e.g consultation, community involvement, energy efficiency measures

The club has very good links with the school due to the fact that that we are pupils there. We have spoken to our members of staff and they are happy for us to advertise and promote this project. We have carried out a petition of local young people through the school, outlining what we intend to do and the ideas that we have had for the track. This has been signed by a large number of people and is something that we will continue to do in order to show that many people in Corsham wish for this project to be successful.

We want this project to provide a high quality track for Corsham and attract riders from all around the town and beyond. We would like this to become a real asset for Corsham and provide opportunities for children younger than ourselves to get involved in our sport and enjoy being a part of it.
