<p>Text of Question</p> <p>At the Executive Mr Stevens asked what this Council could do to convince the National Trust not to use their cottages in Lacock as holiday accommodation to the disadvantage of local people. The Housing Needs survey identified a need now. If existing cottages are lost to local families the housing problem will get progressively worse.</p> <p>Will the portfolio holder make strenuous efforts to convince the National Trust that they are not acting in the interest of the Community and ask that they reverse their decision? Will the portfolio holder also establish if there is any pressure that this Council can apply on the basis that the National Trust is a 'significant housing provider' in the area?</p>
