Question received from Councillor A.M, Bucknell

Pledge 22 of the 25 pledges announced by the Leader just a month or so ago states

"The council is working to promote healthy lifestyles for all ages through a range of facilities. As people's lifestyles have changed so have their aspirations for leisure time. Work is taking place to encourage more participation involving sport and physical activities, especially involving the disadvantaged."

Can the leader explain to the people of Wootton Bassett, Cricklade and Calne , so short a time after announcing these pledges, how the decision to allow the closure of the three centres there will contribute to this pledge?
