

North Wiltshire District Council Community Area Awards A Guide to Funding

www.northwilts.gov.uk

Community Area Awards can have a big impact on your Community.

Each year we award funding to local groups and organisations throughout the District to help provide facilities, equipment and activities that benefit the local community.

In 2006/07 the Council has committed funding to each of its five Area Committees to help fund worthwhile local schemes. Community Area Awards can make a big difference in helping communities get schemes and projects started.

Councillors wish to support projects and schemes identified in the Community Plans and will allocate at least 75% of their funding to such projects. Other projects, not demonstrating a link to the Community Plans will still be considered for the remaining 25% of funding, available to communities where evidence can be provided to identify a community need.

Where applications do not meet the funding criteria, officers will contact the applicant. Where possible they will suggest revisions to enable re-submission at a later date or will return the application form with a letter explaining why we are unable to consider it.

Grants will be considered **three times a year** on the advertised dates

Please ensure that you read the guidance notes *before* completing your application form.

Which type of funding should I apply for?

Capital and Revenue funding is available, but both will not be awarded for the same scheme. Please use the guidance below to help you complete the application form.

Capital Funding covers:

- purchase of land, buildings, plant, vehicles and large pieces of equipment
- construction of buildings and engineering works
- enhancement of land, roads and buildings

Examples of capital projects would include renovations to community halls, playground equipment, youth shelters etc.

Revenue Funding covers:

- Day to day business and running costs
- Any request of £500 or less e.g. sports equipment, funding play schemes and other community support projects

**PLEASE NOTE: Large format information is available.
Please Contact: 01249 706448**

- Community Groups may submit subsequent applications year on year where there is a new project or a different target audience
- Organisations and Community Groups seeking funding of less than £500 are recommended to submit applications as early as possible in the funding year to ensure they are able to spend any awards by 31st March 2007
- Community consultation and feedback should form part of any funding proposal
- Project location example - if you were looking to provide a concert in Chippenham, which could potentially bring in an audience from another community area, but would largely benefit the Chippenham, you should tick the Chippenham (Area 3) box. If however, your scheme provides a service that is available to anyone across the District you need to contact the Partnership Development Officer (jmoody@northwilts.gov.uk)
- Applicants are requested to confine their application to the space provided on the application form. Any additional information (other than accounts, quotes) will not be considered as part of the application made to Committee

- The Community Plan for your area can be found on the North Wiltshire District Council website (www.northwilts.gov.uk), at your local library, or contact the relevant officer
- Where applicants are seeking other sources of funding, they are recommended to contact those funding organisations listed on the 'Additional Sources of Funding' sheet, which forms part of this pack
- Where applicants want to discuss issues relating to the total funding of their project or require support to complete application forms, they are recommended to contact Charities Information Bureau (see 'Additional Sources of Funding' sheet, attached)
- District Councillor involvement in project bids is desirable. If you would like the name of your Councillor, please see the Council's website (www.northwilts.gov.uk) or contact the Council on 01249 706111
