Headline Outcome	Sub - Outcome	Owner - Lead	Activities	Enabling Measures	Mandatory or LPSA Target?	Target
<p>1 Improved waste efficiency through minimising the rate in growth of household waste arisings and maximising the total tonnage of household waste recycled and composted.</p>						
	<p align="center">1.1 Reduced growth in total household waste arisings.</p>	<p>Wiltshire Waste Partnership</p>	<p>? Promote home and community composting. ? Promote reuse, for example furniture reuse schemes, 'real' nappy schemes. ? Deliver waste minimisation education programme to schools. ? Facilitate and support composting in schools. ? Promote sustainable consumerism (i.e. local food, reduced packaging) and advocate Alternate Weekly Collections. ? Roll out complete Alternate Weekly Collection services by end of 2008/09. (All above are county wide activities.)</p>	<p>Certainty over funding for continuation of waste minimisation programme, for example future DEFRA/WRAP funding streams for education and behaviour change regarding waste reduction and reuse</p>	<p>yes - LPSA indicator: Tonnes of waste minimised by March 2008 (from April 2005, start of LPSA). LPSA target: minimise 6,150 tonnes of household waste between April 2005 and Mar 2008.</p>	<p>1. 1% reduction in annual growth of household waste. Thus average growth lowered to maximum of 3% for LAA period, with the ultimate LAA target measured over 3 years. NOTE: NEED TO CHECK THESE AGAINST LATEST POP'LN FIG'S. 2. LPSA target: minimise 6,150 tonnes of household waste between April 2005 and Mar 2008.</p>

	1.2 Increased recycling and composting of household waste.	Wiltshire Waste Partnership (WWP)	<ul style="list-style-type: none"> • Roll out complete Alternate Weekly Collection services by end of 2008/09. • Continue Recycle for Wiltshire campaign. • Develop and maintain WWP website and directory for public information. • Support paper recycling in schools. • Deliver recycling education programme in schools. <p>(All above are county wide activities.)</p>	Need certainty over Government funding post WPEG which is only secured to Mar 2008.		40% recycled and/or composted by 2009/10. The JMWMS target of 40% by 2010/011 will be brought forward by one financial year. In addition, this target will be reviewed at annual refresh based on latest performance and the capacity to stretch will be considered. It is considered highly likely that, as well as bringing forward performance, the target recycling rate will also increase for years 2 & 3. This is dependent on the outcomes of modeling current performance and securing future resources

2 Protect, maintain and enhance the County's biodiversity						
	2.1 Ensure high quality biological information is readily available to aid decision-makers	Wiltshire and Swindon Biological Records Centre (WSBRC)	<ul style="list-style-type: none"> Undertake an audit to determine key gaps in data coverage. Create targeted volunteer recording schemes to help fill these gaps. Identify other actions required to complete coverage Capture data from surveys undertaken by third parties onto the WSBRC database (County Level) 	<ul style="list-style-type: none"> Partners need to provide the WSBRC with all available data. Pre-application guidance to developers stating that published biological data will be provided to the WSBRC. Service Level Agreements between WSBRC and funders should cover this. 		2 new volunteer schemes 1 new scheme
	2.2 Better protection and enhancement of biodiversity through the planning process	Local Authority Ecologists	Ensure that there is specialist ecological capacity at the district level to work with developers and planners to ensure major new built development protects and includes significant gain for wildlife (District Level)	Secure a commitment from all districts to support a District Ecologist services equivalent to at least 0.25 of a post each		All Districts have direct access to and support District Ecologist services
	2.3 More rapid progress towards delivery of Biodiversity Action Plan (BAP) actions and targets by focussing on the Wiltshire targets identified as Countdown 2010 priorities	Natural England (NE), Wiltshire Wildlife Trust (WWT) and Wiltshire County Council (WCC)	<ul style="list-style-type: none"> Review and update all BAP actions and targets to ensure they reflect Countdown 2010, national, regional and local priorities. Publish revised Wiltshire BAP targets, and programme of actions. Secure the commitment of BAP partners to delivering the Wiltshire 2010 priorities. (County Level) 	Sustained co-ordination of the Wiltshire BAP, requiring secure resources to 2010		Coordination services secured. BAP review complete by 31st March 2008

	2.4 Ensure community engagement processes adequately incorporate biodiversity issues	WCC, NE, WWT	<ul style="list-style-type: none"> Support community planners to ensure recognition of biodiversity issues. (District & sub district levels.) 	Provision of advice at district and sub district level to community planners		Biodiversity included in community plans
	2.5 5 Improved the condition of County Wildlife Sites (CWS).	WWT	<ul style="list-style-type: none"> Survey and assess the condition of all Wildlife Sites where access can be secured. Advise landowners or managers on management of wildlife sites for biodiversity. Stretch the benefits of Environmental Stewardship (ELS and HLS) and the English Woodland Grant Scheme through targeting. Improve the techniques & resources available to site managers through projects such as the Grazing Animal Project. (County Level) 	Ensure land use decision makers are using the wildlife site information for targeting support [or agri environment] schemes		County Wildlife Sites project sustainably supported at an adequate level Targeting statements include County Wildlife Sites
	2.6 Increased number of landscape scale projects.	WW, NE	<ul style="list-style-type: none"> Joint working to Develop a prioritised list of SNAs for landscape scale habitat restoration projects in accordance with the SW Nature Map (County Level) Stretch the benefits of Environmental Stewardship (ELS and HLS) and the English Woodland Grant Scheme through targeting (County Level) 	<ul style="list-style-type: none"> Landscape scale conservation projects will require cross boundary working. Opportunities to use the planning system to support landscape scale conservation projects need to be seized. 		1 list 1 additional project
