Report

Report subject : Assessment of Risk Maturity and Risk Management Group Work

Programme

Report to : Audit Committee

Date : 4th April 2006

Author: Diana Melville, Chief Internal Auditor on behalf of Risk Management Group

1 Background

1.1 The Risk Management Group has carried out an assessment of the council's risk maturity. The purpose of this is to show how well developed the council's risk management process is and to identify areas for improvement. The model used is one developed by the Institute of Internal Auditors and classifies five levels of risk maturity:

Risk naive
 Risk aware
 No formal approach developed for risk management
 Scattered silo based approach to risk management

Risk defined
 Risk managed
 Risk enabled
 Strategy and policies in place and communicated. Risk appetite defined.
 Enterprise approach to risk management developed and communicated.
 Risk enabled
 Risk management and internal controls fully embedded into the operations.

The model can also be used as part of an assessment of the level of assurance that can be placed on the risk management process for the annual Statement on Internal Control. The assessment has also been useful as part of the risk assessment process for the audit plan.

2 Assessment of Risk Maturity

2.1 The model is shown in Appendix A. Characteristics that relate to each of the levels of risk maturity are identified. Where it is considered that Salisbury District Council satisfies the characteristic the box is shaded. As a result of this assessment the level of risk maturity that the council matches most of all is that of 'Risk defined'.

3 Future development and work programme

3.1 Whilst it is clearly good practice to progress towards the level 'risk enabled' the approach of the Risk Management Group will be to lead improvements which will support the council's objectives and overall performance improvement. Wherever possible it is intended that risk management becomes integrated with other management activities rather than a separate discipline. The group considers that this pragmatic approach will result in maximum benefit from available resources.

3.2 The Risk Management Group considers that there are some areas of improvement that will develop the council's risk maturity over the forthcoming year. Key areas for action are set out in the following table:

Area for Improvement	Planned work		
Training	Training for managers planned for May 2006		
Risk appetite	Considered by Cabinet in March 2006 and will be covered by risk management training in May 2006.		
Risk reporting and monitoring	Following training and extended use of the performance management system it is anticipated that this will be more extensive and consistently used.		
Responsibility for risk management	It is not intended to include risk management responsibilities within job descriptions but will be defined within the project management planning framework.		

The Risk Management Group has put together a work programme for 2006. This is shown at Appendix B. The work programme includes the planned work identified above.

4 Recommendations

4.1 It is recommended that the committee note the assessment of risk maturity and Risk Management Group work programme.

Implications:

Financial: NoneLegal: None

Human Rights: NonePersonnel: None

Community Safety: NoneEnvironmental Impact: None

• Council's Core Values: Excellent service, open learning council and a willing partner.

Assessment of Risk Maturity

Process	Risk Naive	Risk aware	Risk defined	Risk managed	Risk enabled
The organisation's objectives are defined.	Possibly	Yes but no consistent approach	Yes	Yes	Yes
Management have been trained to understand what risks are and their responsibility for them.	No	Some	Yes	Yes	Yes
A scoring system for assessing risks has been defined	No	Unlikely	Yes	Yes	Yes
The risk appetite of the organisation has been defined in terms of the scoring system.	No	No	Yes	Yes	Yes
Processes have been defined to determine risks and these have been followed.	No	Unlikely	Yes but may not apply to whole organisation	Yes	Yes
All risks have been collected into one list. Risks have been allocated to specific job titles.	No	Some incomplete lists may exist	Yes but may not apply to whole organisation	Yes	Yes
All risks have been assessed in accordance with the defined scoring system.	No	Some incomplete lists may exist	Yes but may not apply to whole organisation	Yes	Yes
Responses to the risks have been selected and implemented.	No	Some responses identified	Yes but may not apply to whole organisation	Yes	Yes
Management have set up methods to monitor the proper operation of key processes, responses and action plans.	No	Some monitoring controls	Yes but may not apply to whole organisation	Yes	Yes
Risks are regularly reviewed by the organisation.	No	Some risks are reviewed but infrequently	Regular reviews probably annually	Regular reviews probably quarterly	Regular reviews probably quarterly
Management report risks to directors where responses have not managed the risks to a level acceptable to the board.	No	No	Yes but may be no formal process	Yes	Yes
All significant new projects are routinely assessed for risk.	No	No	Most projects	All projects	All projects
Responsibility for the determination, assessment and management of risks is included in job description.	No	No	Limited	Most job descriptions	Yes
Managers provide assurance on the effectiveness of their risk management.	No	No	No	Some managers	Yes
Managers are assessed on their risk management performance.	No	No	No	Some managers	Yes

Overall result: Risk Defined

APPENDIX B

Risk Management Group 2006 Work Programme

Serial	Topic and proposed action	Target Date for completion	Responsible Officer						
Regula	Regular Business								
1	Review of the risks contained within the quarterly performance reports to Cabinet. Review for consistency, in relation to the Council's risk appetite. Presentation to Audit Committee quarterly to demonstrate whether effective risk management processes are in place.	Quarterly – the most recent report to Cabinet will be used as the basis	Group						
2	Receive reports from operational risk management group, business continuity group and disaster recovery group as appropriate.	Minimum frequency – annually.	Group						
3	Annual review of effectiveness of risk management processes to support the SIC	April for report to Audit Committee in June.	Group						
Develo	pmental work								
4	Support the determination of the council's risk appetite and liaison with Cabinet.	Cabinet development day 24 th March 2006	David Crook
