

# Report

**Subject** : Refurbishment of Sports & Leisure Facilities  
**Report to** : The Cabinet  
**Date** : Wednesday 05 December 2007  
**Author** : Robin Townsend, Head of Community Initiatives  
**Cabinet Member for Community Initiatives:** Councillor Brian Dalton

---

**1. Report Summary:**

- 1.1. To gain Cabinet's views regarding options to refurbish the Council's Leisure Facilities that it wishes Officers to incorporate in the corporate structural maintenance programme

**2. Background:**

- 2.1. On 10 October, the Cabinet approved a set of revised political priorities for the Council.
- 2.2. Work was progressing on these through the joint administration, prior to the announcement of the creation of the unitary Council for Wiltshire.
- 2.3. This report focuses on project 14, the refurbishment the Council's Leisure Centres which the Cabinet highlighted as a priority.

**3. Progress:**

- 3.1. A costed report outlining the capital investment required has been compiled (Appendix 1).
- 3.2. The programme of works has been divided into three categories and reflects the perceived difference in the nature of / requirement for the work.  
Priority 1 works - specifically relate to 'refurbishment' work;  
Priority 2 works - is work is perceived to mainly condition survey work  
Priority 3 works - is work considered to be re-design as opposed to refurbishment.
- 3.3. Priority 2 is not an exhaustive list of condition survey work, and there will be a need both in this financial year and future years to replace major items of plant. Some items in this category are considered to be essential in terms of ensuring the continuation of service, an example would be the re-grouting and renewal of the expansion joints on the pool surround and tank at Durrington.
- 3.4. The proposals have been set out in a way that will enable members of the Cabinet to consider each item on its own merits.
- 3.5. The total cost of all the proposals totals £397,154 and includes a sum for specialist services, fees etc.

Awarded in:  
Housing Services  
Waste and Recycling Services

- 3.6. All works will be undertaken under the auspices of the Council's Housing Contract team and Officers have been mindful of the significant work that will also be needed to complete the refurbishment programme.
  - 3.7. The costs associated with all works are based on full unrestricted access during contractors normal working hours. Any restrictions on working access is likely to have a significant impact on costings
  - 3.8. Disability access issues associated with all three facilities will be considered in a corporate context and included a separate report that Legal and Property Services will be bringing to the Cabinet in the new year.
4. **Recommendations:**  
Cabinet agrees the refurbishment programme that it wishes Officers to incorporate in the corporate structural maintenance programme
5. **Background papers:**  
None
6. **Implications:**
- 6.1. Financial: In accordance with best practice the Council has a rolling programme of structural maintenance included in the capital programme expenditure being assessed against criteria set out in the capital strategy. As investment needs are identified the programme is re-prioritised accordingly. The programme has already been set for a five year period and will be routinely reassessed and profiled as part of the annual budget setting process which is subject to full council approval.
  - 6.2. Legal: The Council as landowner is subject to various legal obligations for users of visitors to and staff employed in its facilities under the Occupiers Liability Acts, the Disability Discrimination Act and Health and Safety legislation.  
The Council is able to enter into contracts under the Local Government [Contracts] Act 1997. Any procurement must comply with the Council's contract standing orders and if applicable the European procurement regime. In the event that the value of any capital costs exceed £1M or, if treated as non capital costs, £100,000, or if the total value of all other similar costs backdated to 01.01.2007 exceed the respective financial thresholds the expenditure is potentially subject to control under the Local Government and Public Involvement in Health Act. Under the Act it is open to the Secretary of State to issue a direction that all controlled expenditure requires consent in the absence of which it would not be enforceable against any new Wiltshire authority.
  - 6.3. Personnel: None at this stage
  - 6.4. Community Safety: None at this stage
  - 6.5. Environmental: None at this stage
  - 6.6. Human Rights: None at this stage
  - 6.7. Ward(s) Affected: Potentially all within the SDC area.
  - 6.8. Core Values - Fairness & Equality, Progressive employer, Open Learning Council & Willing Partner, Communicating with the Public, Supporting the Disadvantaged, Excellent Service, Thriving Economy;
  - 6.9. Consultation – None at this Stage
