Aldbourn Youth Council – Skate park was rejected on the grounds that it was exclusively written for a male gender perspective and was not inclusive in this approach.

Broad Hinton and Broad Town application was assessed and all agreed that the current location of the play space was not appropriate, there have been several complaints about the current location and this was potentially a very tricky situation that does not have the whole support of the village so it was agreed that we would all work with the parish to try and locate some more suitable land. Also questions were raised about the validity of the organisation as it currently stands without the legal status of the organisation being confirmed the Council would not be able to enter into an agreement with the organisation.
