

MAB MEETING 5 OCTOBER 2009, MILDENHALL

BAYDON PARISH COUNCIL

There are 3 main subjects on the agenda.

1. Allotments

A part of the Parish Field has been set aside for fourteen plots which have been occupied for nearly two years. There have been lengthy legal consultations with a NALC solicitor and are now concluded. The final resolution regarding appropriation should be complete by the year end.

2. Traffic Calming

The Traffic Calming Group has been very active in discussions with all authorities. From a local perspective the problems of introducing permissible measures to minimise speeding are considerable.

With the intention of increasing motorist awareness about speed limits, it is planned to install village gates on entrance roads to the village. The possibility of obtaining a grant for this will be investigated.

3. Play Area

The village has never had a public play area facility. An application has been submitted under the Playbuilder scheme.

Residents' views on location were obtained at the annual Parish Assembly and via the Scene in Baydon bi-monthly magazine. The choice, to date, is the Parish Field where ample space remains. It has been decided to carry out a leaflet distribution throughout the village because of precept consequences in the future eg maintenance and insurance costs.

Refer to the Baydon website for further information on the above and other village subjects.
