I do not wish to pay a fee to park in my own street. This was not mentioned in the original proposal, or indeed in the recent survey questionnaire circulated by the Council. 2. I object to the presence of turning circles at the end of George Street South and Meadow Road South, since their presence will decrease the overall number of parking spaces across the zone. 3. Due consideration has not been given to the number of vehicles that will need to park across the Zone, so that no one can say whether or not there will be enough spaces for every permit holder to park, given that the overall kerbside parking space will dramatically reduce when permanent and part time no waiting areas are introduced. The Council needs to conduct a survey to establish these facts, so that residents can approve this proposal properly with the full accurate facts, before the amendments should be passed. 4. Consideration should be given to either moving the yellow lines to the other side of St Paul's Road, or converting some of them to residents parking bays, in the event of any new no waiting areas being introduced.
