CHIPPENHAM RAILWAY STATION FORECOURT IMPROVEMENTS

PROPOSED ASSOCIATED TRAFFIC REGULATION ORDERS

SUMMARY OF OBJECTIONS

- (A) The length of road intended for closure is little used and there would be minimal benefit to the environment, pedestrian safety or amenity value of the area.
- (B) A one way system in Monkton Hill, with traffic calming measures and paved surfacing would be preferable.
- (C) The closure of Monkton Hill would remove the alternative connection to Monkton Park Estate and other establishments in that vicinity.
- (D) A new road serving the Monkton Park area would be a preferable alternative.
- (E) The closure of Monkton Hill would increase traffic flow in St. Mary's Place which is already used as a rat run.
- (F) Traffic going to the Council Offices and other businesses would be obliged to turn round outside the District Council entrance causing congestion.
- (G) The proposed closure of Monkton Hill would isolate the sole access to No. 6 Monkton Place. The point of closure would need to be located southwards to prevent this.
- (H) Station Hill is frequently blocked by delivery vehicles and Monkton Hill provides an alternative route to and from Monkton Park estate. The closure would make access more difficult, particularly for emergency vehicles, and generally cause more congestion.
- (I) The proposed redevelopment of the former cattle market site would attract a greater volume of traffic to the Monkton Park estate, thus exacerbating the effects of closing Monkton Hill.
- (J) The closure of Monkton Hill would cause traffic to back up along Cocklebury Road and New Road, increasing congestion at the junctions on those roads.
- (K) Loading, servicing and on street parking reduce Station Hill to single file traffic, exacerbated by traffic connected with rail movements. The associated congestion would be compounded by the closure of Monkton Hill.
- (L) Access to Monkton Cottage would be adversely affected.
- (M) The introduction of one way traffic up Monkton Hill would be preferable.
- (N) The proposal to close Monkton Hill is a "silly and pointless idea".

PETITION

A petition was submitted by **Mr Kenneth Hulbert** of **21 Sadlers Mead, Chippenham**.

The objections raised correspond to items **C, H, I** and **K** in the summary of objections.

The petition contained 326 signatures.

Approximately 40 of the signatories to the petition also responded directly.

ADDITIONAL COMMENTS

MONKTON HILL – PROPOSED PROHIBITION OF THROUGH TRAFFIC

Support for, or absence of objection to, the principle of the closure of Monkton Hill to through traffic was indicated by the following respondents:

A resident	St Mary's Place
Leach Mrs S.	6 Monkton Hill
Levett A.J. & Mrs R.E.	5 St Mary's Place
Wood W.A. & Mrs J.M.	Monkton Cottage, Monkton Hill

COCKLEBURY ROAD – PROPOSED ZEBRA CROSSINGS

No objections were received regarding the proposed zebra crossings in Cocklebury Road. However, it was suggested by **Mr and Mrs W.A. Wood** that:

"...a significant number of vehicles driving up Station Hill make a U turn at the Monkton Hill junction. The road is wide enough to make this an easy and quick manoeuvre. In order not to divert this manoeuvre to a more unsuitable location the start of the narrowing for the crossing should be moved further east to allow this to continue."
