The system will reduce our carbon footprint, cut our electricity costs for most of the year and provide income as excess is fed back into the national grid. This will mean hall is well heated and that community groups who hire the hall are not having to pay increased charges for electricity. There is at least one community group per day (WI, WIVES, CHILDRENS DANCE etc) using the hall at present.

Wiltshire Council will be unable to meet the ongoing costs of your project. Please describe, therefore, how you will ensure the financial sustainability of your project beyond the period of this grant (if successful)?

As well as producing our electricity it will provide income from resale to National Grid

The Village Hall Committee manage the hall for the benefits of residents of West Ashton and the surrounding communities of West Wiltshire.
