### **WCS5: The Wiltshire and Swindon Waste Hierarchy and Sustainable Waste Management**

In the interest of sustainable waste management, the Councils will seek to drive waste up the hierarchy by ensuring that developers demonstrate that the most sustainable option for waste management in Wiltshire and Swindon has been promoted. The order of preference is set out below:

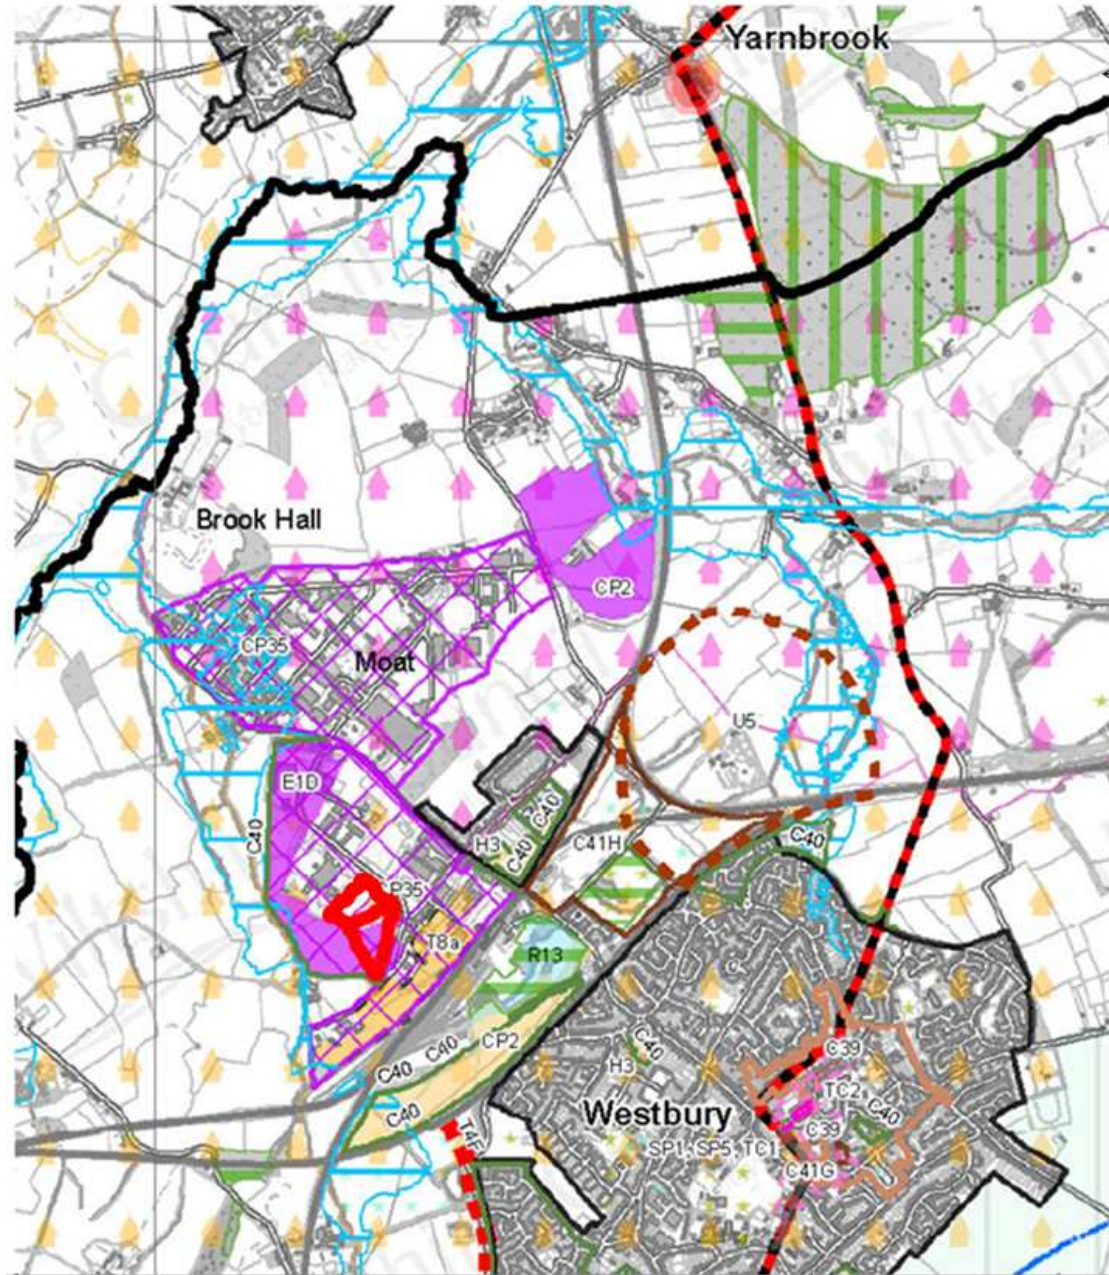

Extract from HM Government publication -  
“Our Waste, Our Resources: A Strategy for England”, December 2018

## **Policy: Development Plan –**

- Wiltshire Core Strategy –  
Principal Employment Area
- Wiltshire & Swindon Waste Site Allocations Local Plan –  
Allocated Strategic Scale Waste Site
- Wiltshire & Swindon Waste Core Strategy –  
WCS3 – **Energy From Waste** – to be preferably located on  
‘industrial land / employment allocations’ and ‘site  
allocations and current waste management facilities’

South-west facing elevation >

**Current Proposal – ‘side facing’ elevations**

## **Principal differences between refusal (18/03816/WCM) and current application:**

- Re-profiling and regrading of the site to reduce the base (finished floor) level from a sloping site of 64.7 AOD to a level site at 62.0 AOD
- Reduction in the height of the process building
- Changes to the layout which move the waste feedstock and preparation building away from the south-west corner of the site
- Reduction in total building footprint
- Adoption of a bespoke colour scheme to break up the mass of the buildings and reduce their visual impact

## National Planning Policy for Waste –

When determining waste planning applications, waste planning authorities should -

- “ ..... concern themselves with implementing the planning strategy in the *Local Plan* and not with the control of processes which are a matter for the *pollution control authorities*”.
- “ ..... avoid carrying out their own detailed assessment of *epidemiological and other health studies*”.
- “ ..... work on the assumption that the *relevant pollution control regime* will be properly applied and enforced”.
