5. Chairman's Announcements

- Ash Dieback - Video

Wiltshire Council

Ash Dieback is expected to lead to the death of most ash trees in Britain over the next 5 – 15 years.

It is already affecting trees in Wiltshire.

Ash dieback is a serious public safety issue.

Landowners are responsible for dealing with it on their land.

All landowners need to identify ash trees growing alongside the **highway, public rights of way and in public spaces** showing signs of this disease and take action.

5 YEAR MAJOR MAINTENANCE PLAN

Email: diane.ware@wiltshire.gov.uk

Wiltshire Council
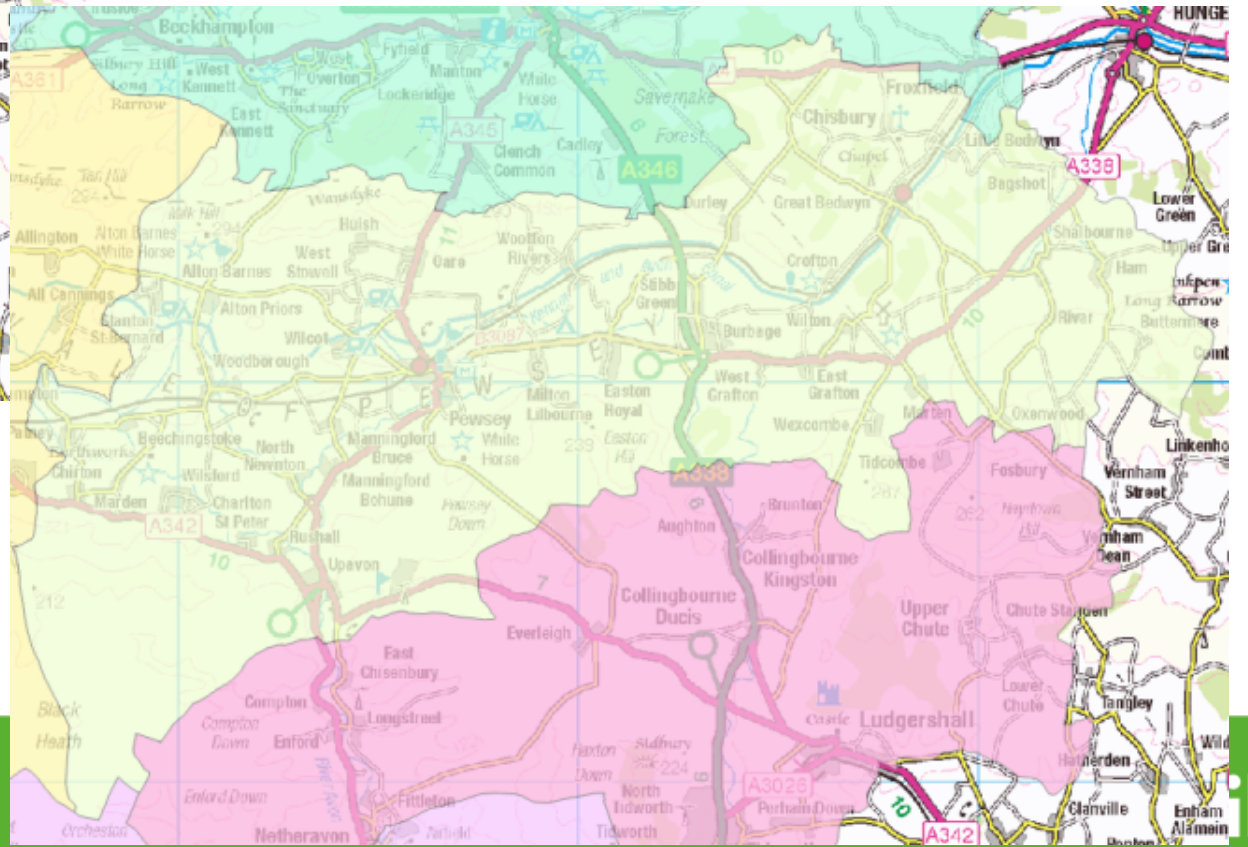

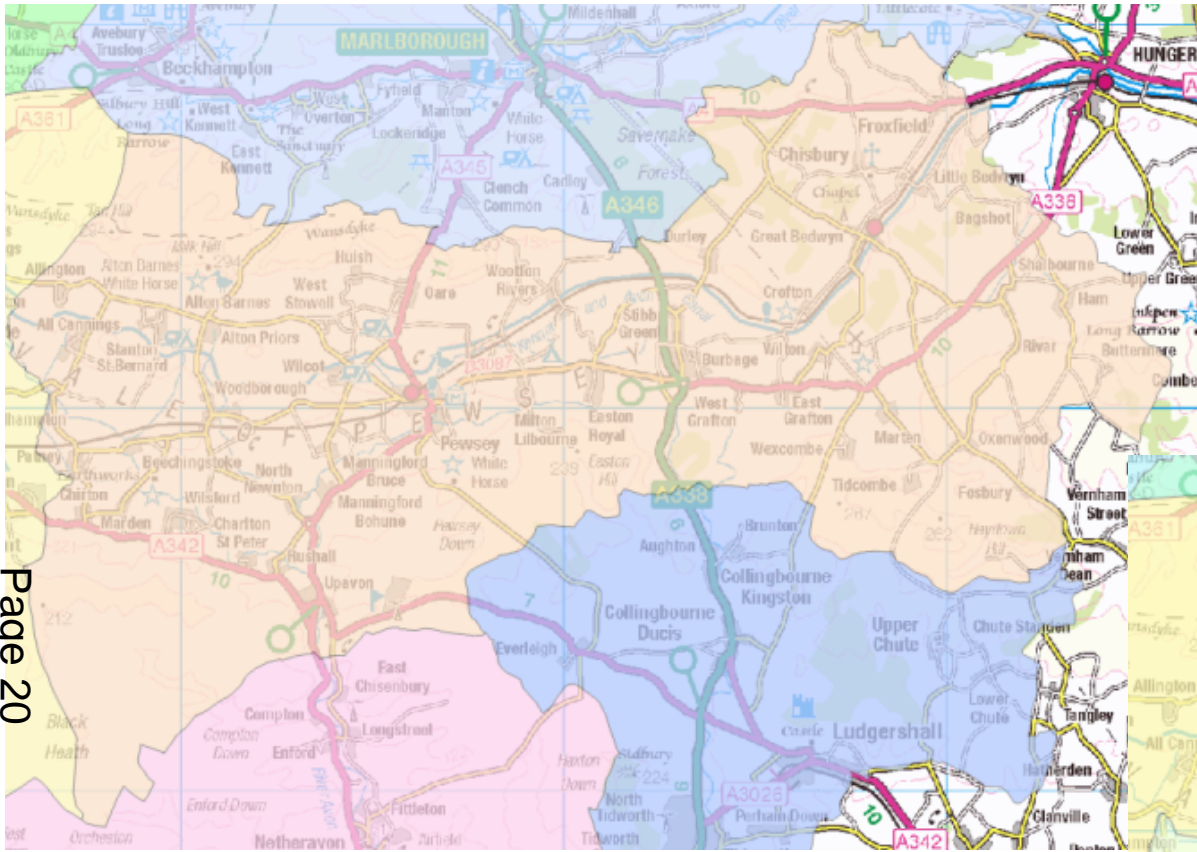

CURRENT CONDITION BY AREA BOARD

TOTAL % OF THE ADOPTED NETWORK REQUIRING MAINTENANCE

A 5 year average is used to monitor the condition of the network due to the surveying regime of undertaking a 50% network length

The graphs show that even with a deteriorating network the targeted maintenance schemes are generally improving the overall condition of the roads within Wiltshire, a rolling 5 year programme and funding process is designed to allocate resources to those areas with a higher percentage of poor roads based on their network length.

The target is for all area boards to be at the same low level of around 20% of the network requiring some form of maintenance
AREA BOARD - CHANGES TO AREA

Spend profile

	Pewsey Annual spend	Pewsey Cumulative Spend 5 years
2022/23	£939,500	£939,500
2023/24	£825,000	£1,764,500
2024/25	£914,000	£2,678,500
2025/26	£817,000	£3,495,500
2026/27	£720,000	£4,215,500
total	£4,215,500	

£3,376,918 average 5 year Wiltshire area board budget

CONDITION 5-year average red and amber requiring treatment	Wiltshire	Pewsey
AB and C roads 2018/19	33.5	35.7
AB and C roads 2019/20	32.57	36.45
AB and C roads 2020/21	31.90	37.05
2019/20 Unclassified	18.50	23.70
2020/21 Unclassified	18.60	24.05

Some schemes have been postponed due to covid issues, i.e. if they are on the route to a vaccination centre or to a key industrial area, these works have been moved to 2022/2023, potential budget issues may mean they are delayed for longer. Works around industrial areas that could effect businesses have also been delayed as to not compound the difficulties of lockdown. The condition table is to be updated, NOTE CHANGES IN YEARLY SPENDS DUE TO BOUNDARY CHANGES

Highways Asset Management

The local highway network is vital for businesses and communities, and effective maintenance to ensure its availability is essential to the economic development of the county. Wiltshire Council recognises the importance of maintaining and managing its highway network effectively.

Wiltshire Council is committed to the good management of the highway asset and has been implementing asset management principles for many years. There has been under investment in highways maintenance nationally for many years, but in recent years Wiltshire Council has been making a significant investment in improving the county's roads.

The Council's Policy and Strategy for highway infrastructure maintenance and renewal are contained in the documents below. An annual programme of surfacing and similar work is produced and reported to the Area Boards.

There has been a substantial improvement in the overall condition of the county's road network in the past decade, but it is appreciated there still roads in need of treatment and the need for further investment. The overall condition of Wiltshire's roads compares favourably with the national average and the south-west average road conditions.

Wiltshire Council has identified a resilient network. This comprises the key routes into and through the county, which generally carry the most traffic, and where long term unavailability would be likely to cause serious disruption. These routes are given special consideration in connection with maintenance works and infrastructure renewal.
