Bath and North East Somerset, Swindon and Wiltshire Integrated Care Board

## BSW ICS Strategy Development

August 2022 Richard Smale – BSW ICB Director of Strategy and Transformation

### Context – Integrated Care Strategy

### Bath and North East Somerset, Swindon and Wiltshire Integrated Care Board

### New guidance issued on 29<sup>th</sup> July 2022

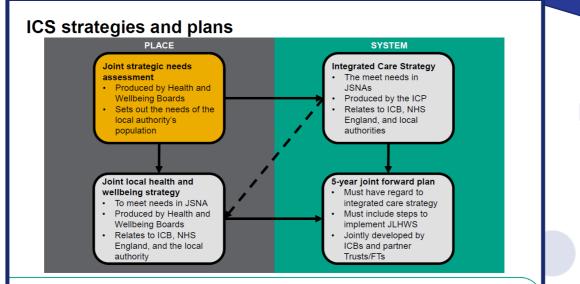

- Develop in partnership with communities and organisations
- Evidence-based system-wide priorities that will improve the public's health and wellbeing and reduce disparities.

Department of Health & Social Care

• Aligned to local Joint Strategic Needs

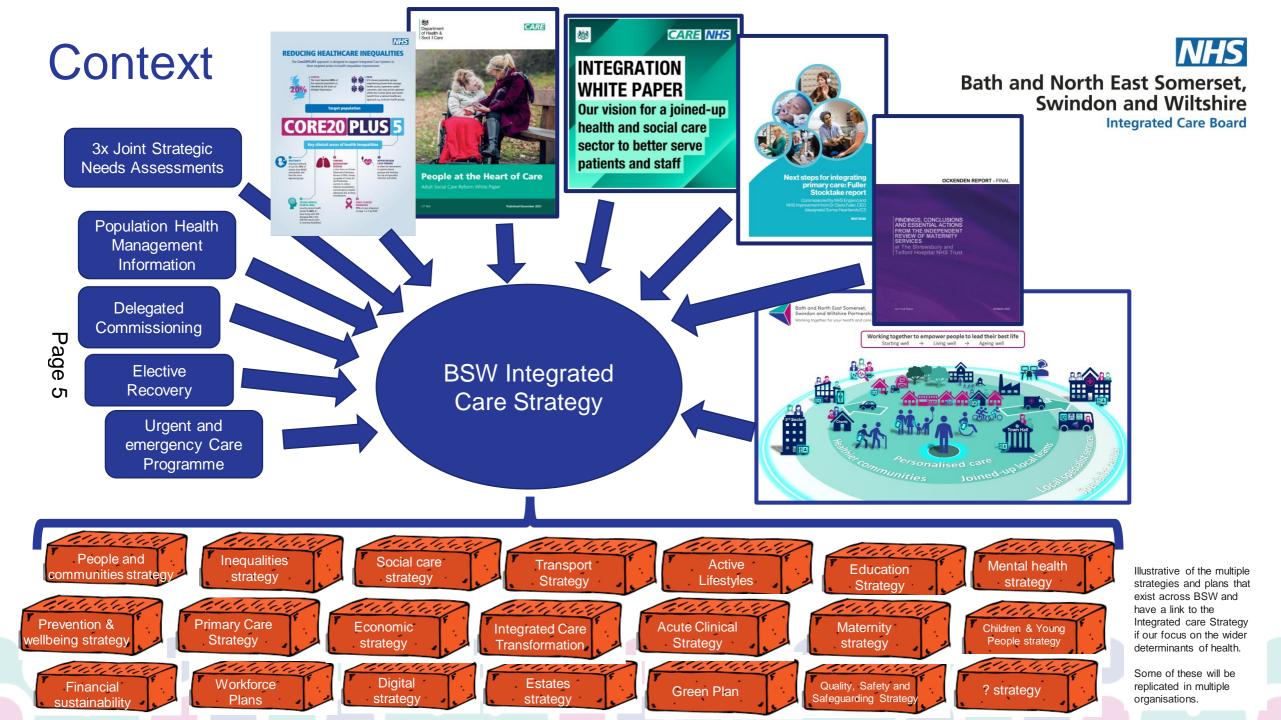

Assessments

The integrated care strategy should set the direction of the system across the area of the integrated care board and integrated care partnership, setting out how commissioners in the NHS and local authorities, working with providers and other partners, can deliver more joined-up, preventative, and person-centred care for their whole population, across the course of their life. The integrated care strategy presents an opportunity to do things differently to before, such as reaching beyond 'traditional' health and social care services to consider the wider determinants of health or joining-up health, social care and wider services.

### Link to the Guidance

https://www.gov.uk/government/publications/guidance-on-thepreparation-of-integrated-care-strategies/guidance-on-thepreparation-of-integrated-care-strategies

### Role of the Integrated Care Partnership (ICP)

Be open and

inclusive in strategy

development and

leadership, involving

communities and

partners to utilise

local data and

insights.

Bath and North East Somerset, Swindon and Wiltshire **Integrated Care Board** 

support integrated

approaches and

subsidiarity.

Department of Health & Social Care

## Integrated Care Strategy and the Joint Forward plan

Integrated care strategy

- Developed by the Integrated Care Partnership (ICP)
- Describes how the assessed health, care and wellbeing needs of the local population are to be met by the ICB, LAs and NHSE.
- Must address integration of health, social care and healthrelated services.

Five year planning exercise				
Multi-year planning returns	Joint forward plan			
The Long Term Plan refresh and multi-year planning guidance will be published by NHSE	<ul> <li>Developed by the Integrated Care Board (ICB) and partner trusts / foundation trusts</li> </ul>			
<ul> <li>Detailed operational returns will be required for Years 1 &amp; 2 (as per current funding settlement)</li> </ul>	<ul> <li>5-year plan describing the local NHS contribution to delivery of the integrated care strategy and universal NHS commitments</li> </ul>			
	<ul> <li>Will reflect local priorities and address the four core purposes of ICSs</li> </ul>			
	<ul> <li>Should be coherent with planning returns</li> </ul>			

### Systems are required to produce an integrated care strategy, NHS planning returns and a joint forward plan in 2022/23

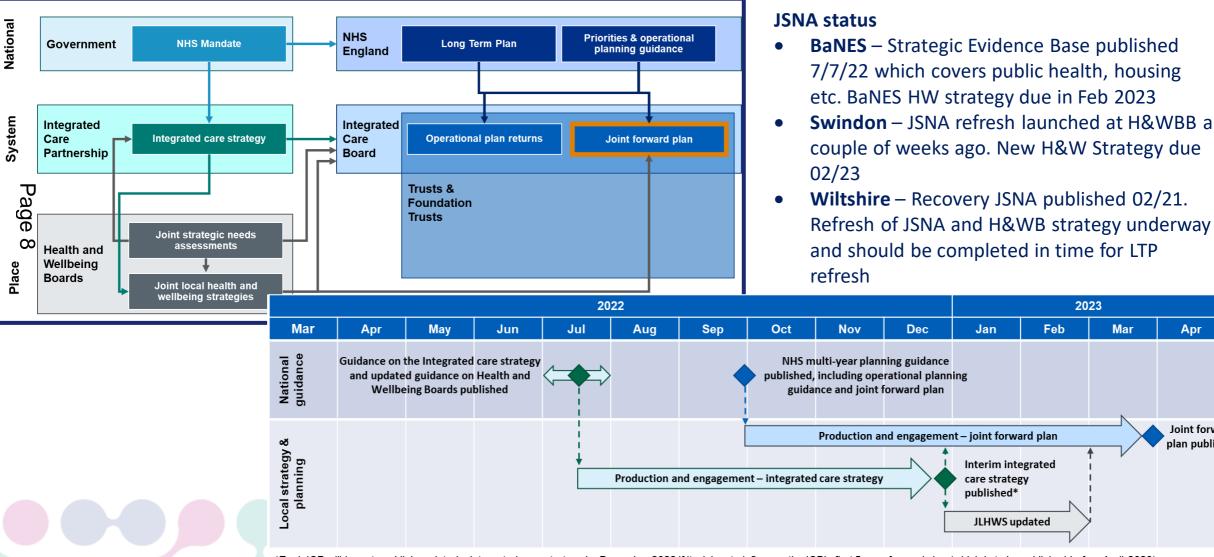

2023

Mar

Apr

Joint forward

plan published

\*Each ICP will have to publish an interim integrated care strategy by December 2022 if it wishes to influence the ICB's first 5-year forward plan (which is to be published before April 2023).

## Integrated Care Strategy

Points for consideration

- Opportunity to focus on outcomes and tackling inequalities.
- 'Something new' or 'iteration' of current work?
- 'Interim' or 'long term' (due to timescales for completion)
- Neighbourhood, Place and System elements
- Page 9 Level of alignment desired across BSW organisations
  - Approach to collaborative production ٠
- Generating the right insight/evidence base •
- Resourcing the production of the Integrated Care Strategy

"Our aim is not to focus on the production of a lengthy or glossy document, but to use the development of the strategy to stimulate activities which make a meaningful difference to the population of BaNES, Swindon and Wiltshire"

### Integrated Care Strategy development timeline

Version 0.2 (23 August 2022)

### Appendix 1: BSW design principles

- 1. We will improve the health of our population through prevention of illness, early intervention and promoting wellbeing and independence through all stages of life.
- We take responsibility for addressing the wider determinants of health and will reduce health inequalities in our 2. communities.
- We work as one system without boundaries with parity of esteem between services. 3.
- We make the best use of our combined available resources to deliver the highest quality care. 4.
- Page 5. We use shared evidence, listening, learning and co-designing care around the individuals we serve.
  - We treat and support people at home or as close to home as possible. 6.
  - We nurture a flexible and ambitious workforce.

 $\frac{1}{2}$ 

- 8. We innovate and maximise the use of digital technology to improve care and access to care while supporting those with limited access to technology.
- 9. We make decisions as close as possible to those people they affect.
- 10. We are a learning system in everything we do.

## Wiltshire Integrated Care Alliance Reset – September 2022

**August 2022** ge 1 3 **V2 - DRAFT** 

### Where it started and where we're going

### Professional Leadership Network (Oct 2020)

 set the vision, established ways of working together and identified areas of shared interest. We began working as an informal Alliance

### **Working Together**

 We worked together, initially to respond to COVID but evolved to start developing our work across other areas. Began thinking about how we would work as the ICS and co-developed design principles and strategic priorities. Developed detailed work plan for 2020-21

### ICA Development Session (February 2022)

We agreed our 'mandatory' work and the areas we wanted to explore in our March session and outline areas for our work programme. We identified what we have achieved and learnt about working together.

### Developed and Agreed WICA Structure and Governance

### (December 2021)

We worked on our structures and early collaboration agreement, leadership, strategy – approved via BSW Exec and Local Authority Cabinet

### ICA Development Session (October 2021)

We worked on our priorities, our ambitions for early intervention and prevention, focussed health and care gaps improvement and talked about what work we wanted to do together.

### ICA Development Session (March 2022)

We agreed our priority Neighbourhood Collaboratives programme and discussed a population health and care driven approach to working together. Work programme was formally agreed.

### Wiltshire Alliance (July 2022)

The ICB was established and our Alliance was placed on a formal platform. We continue to work on our structure and governance processes and develop our way of working

### 2022 and Beyond

We will continue to evolve our Alliance and our priority work areas, working to close population health and wellbeing gaps with our communities and colleagues.

## Page 14

### Alliance Workshops (April / May 2021)

Worked through key pressures, agreed to 'future work' now, identified what to keep and change and our priority work.

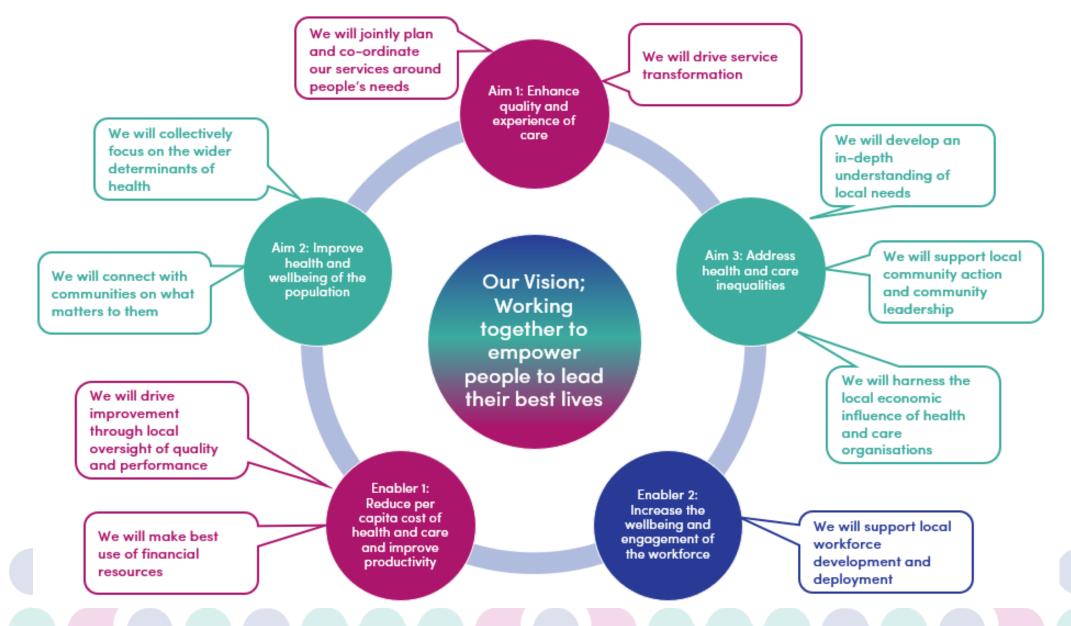

## Development Days – Changing Outcomes

We have worked together in a number of development sessions to talk about how we want to work and what we want to do together. We used some examples of people living in our area to think about what would be different for them is we fully stepped into the changes we want to make.

Derek – an 82 year old black man, living on his own in social isolation with multiple long term conditions and may have early stage dementia Simon – a 25 year old man with a learning difficulty and autism and challenging behaviour. He needs a new placement but no provider	<ul> <li>Strategy and Vision</li> <li>Population health approach to close gaps</li> <li>Focus on investment in prevention and early intervention and shift resources towards this approach.</li> <li>No-one should be 'not ill enough' to 'meet service inclusion criteria'</li> <li>Making localism a key factor so people access help from within their own community which is enhanced through our integrated services</li> <li>Develop a shared vision for each population group and align planning and resources across all partners</li> <li>Removal of contractual barriers</li> <li>Work holistically to include environment, education, fire and police etc into our planning and development</li> </ul>	<ul> <li>Other Factors</li> <li>Comparison to other areas – benchmarking</li> <li>Learning from excellence elsewhere and from within should be identified and acted on.</li> <li>Design from 'scratch' rather than try and adapt what is already there.</li> <li>Hard wire change - what does success look like?</li> <li>Recognise that change is longer term.</li> <li>Ensure we have information systems which work for us and join our workforce and services together.</li> </ul>
will offer one. Jill – a 10 year old living in our most deprived area, with complex needs and risky family background	<ul> <li>Leadership and Decision-Making</li> <li>Strong and visible leadership that promotes the visions we've agreed together</li> <li>Investing in our staff is critical</li> <li>Need to take our people with us and ask them to lead too</li> <li>Agree what DOESN'T work and stop doing it</li> <li>Promote 'test and change' environment so we can try new things and then continuously improve.</li> <li>Develop joint teams and genuinely integrated working</li> <li>Enable use of resources in a joint way</li> </ul>	<ul> <li>Person-Focussed</li> <li>Personalisation and co-production are key <ul> <li>'value what the person values'.</li> </ul> </li> <li>Have the services located near people, don't bring the people to the service unless necessary – promotes easier access for all.</li> <li>Tell your story only ONCE; information is shared easily and accurately across all partners.</li> <li>Equity and parity are critical</li> </ul>

More detail is a a allable on <del>qu</del>r development days and their outputs

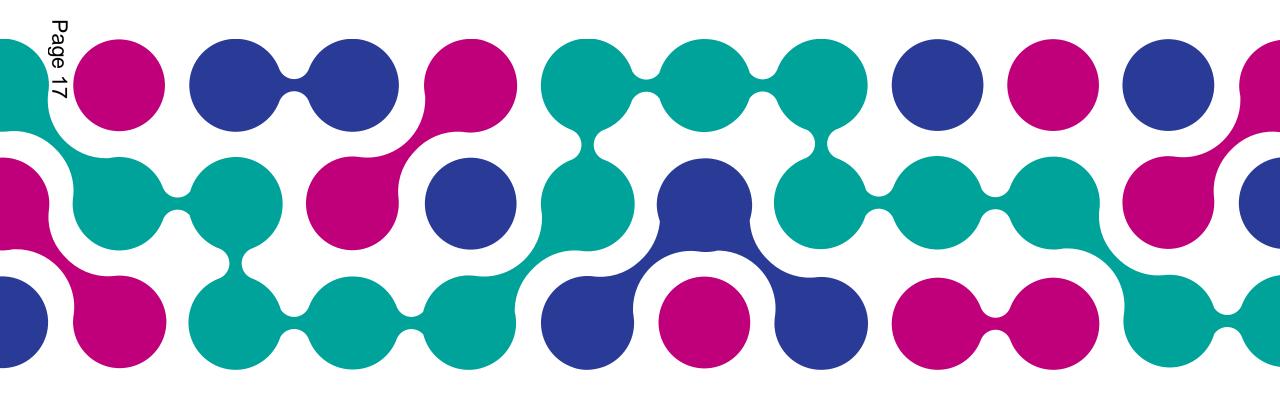

## Alliance Vision and Contribution

Page 16

## We asked people what they thought of our Alliance

## What have we done or are we doing that we're proud of?

• The strongest theme was the strong, trusting and open relationships that were forged during the initial pandemic response. These were the underpinning factor behind other achievements.

"Clear communication and relationship building, supporting each other has been vital"

"The Hospital Discharge Support at the start of the pandemic; we worked together as one across many organisations"

"Using our funding in a better way makes a difference"

"Support for our care home providers" "Committed to supporting and trusting each other"

"The fast pace we been able to make improvements"

What have our communities, service users and colleagues told us made a difference to them?

- We know we need to do more to engage with our colleagues and communities. Our "Connecting with Our "Communities' group is "Communities' group is "Ieading this work with a workshop in August, and listening events planned in Studley and Bemerton
- Where we have been able to gather feedback, it's been overwhelmingly positive.

"Colleagues feel supported to work differently and make decisions on what they think is best"

"but some of our care providers and GP practices don't feel involved or included, we need to do more on this"

"90% positive satisfaction rating in hospital discharge services. Quality of life and experience feedback has improved and people are happy with the service."

"We have a gap here - we need to make the Alliance real for our communities and seek their views"

## Why does the Alliance really matter?

"Moves decisions closer to individuals and communities, increasing the chance to make better decisions for people"

"It's focussed on Wiltshire with an entire purpose to serve, using shared resources to do what matters"

"It gives us a moral purpose – the value is in improving outcomes for people who live in Wiltshire"

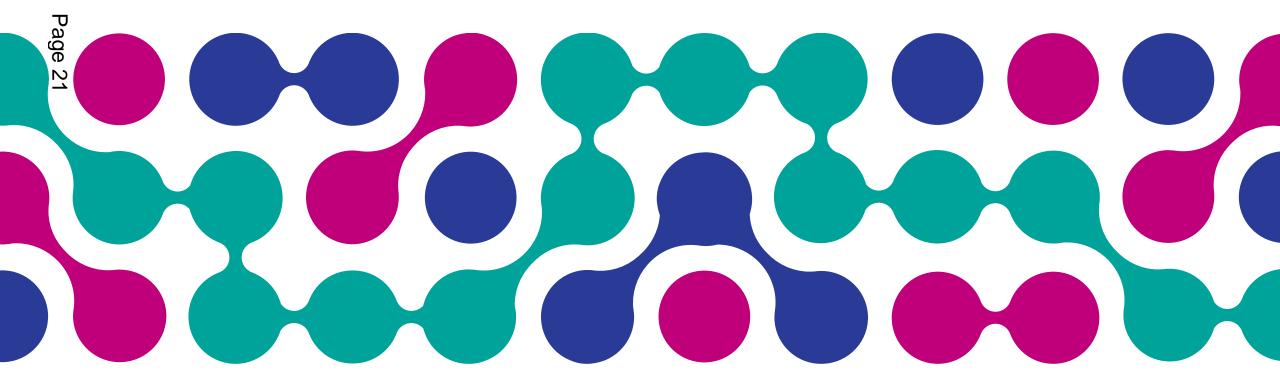

"Without the ICA we might say we're focussed on our population, but the ICA is evidence that we are"

"We're stronger together, with a common purpose and priorities. Funding arrangements hold us back though"

- Through our Alliance we will work collaboratively for the benefit of local communities, bringing decision making closer to individuals and communities
- The Alliance enables us to define the possibilities of joint working at Place creating a shared vision

## We have agreed together on important principles and ways of working

## Why a place-based partnership for Wiltshire?

### Our purpose:

To improve outcomes, tackling inequalities, enhancing productivity and value for money, helping the NHS support broader social and economic development.

### The features of Place include:

- Joint decision making
- Coordinated interface and relationship with local communities
- Integration of community services across
   organisational boundaries
- Partnering with local assets within voluntary, faith and community sector
- Opportunities for reducing duplication, inefficiencies, and unwarranted variation
- Meaningful population health management footprints improving equity of access and reducing inequalities in health and care outcomes

## **Our Core Commitments**

- **Transformation & service delivery**; develop a shared vision for health and care in partnership with communities using an in depth understanding of the population, strengths and needs in line with the Integrated Care System (ICS) Partnership Strategy and our Health and Wellbeing strategy.
- Service Planning with key focus on integration and innovation; Develop priorities in response to local needs. Considering and implementing approaches and care models that support integration of health and care services (including VCSE provision).
- **Population health management;** Optimise the use of system population health analytical capabilities to
- support planning, local care redesign, & population segmentation and targeted initiatives or actions
- Page Make decisions about resources within defined Place-based budget. Utilising joint commissioning arrangements (BCF/S75) and delegated budgets to make planning decisions. Mobilising local assets 23 (physical, social community, personal) to improve population health and wellbeing
  - Give a voice to residents and communities; Actively listening and engaging and designing with communities. Mobilising local communities and building community leadership capacity, developing new approaches to working in partnership with communities
  - Focus on prevention and health promotion, identifying mutual opportunities to influence the wider determinants of health and wellbeing in supporting improvements for all and reduce inequalities
  - Engage with and influence the work of the ICS actively informing and delivering the strategy of the Integrated Care Partnership, and matrix working in transformation work being delivered at-scale
  - Be open to scrutiny; tracking risks and evaluation of the impact of our decisions on outcomes, and responding to asks from the Health Select Committee and ICS

## **Development of our Alliance**

Alongside the national direction for Thriving Places, the following rationale for governing services and budgets at Place have been locally determined:

- 1. Governing at place level ensures alignment of resources for best decision, with a focus on enabling neighbourhood level integration of health and care services
- 2. Governing at place level enables simplification of current governance arrangements Page
  - with a focus on enabling place-based leadership to influence efficient and effective
- 24 service delivery
  - 3. Governing at place level ensures engaged leadership with the appropriate power and influence to shape place and neighbourhood level services

In light of the above, current alliance leaders have agreed an important principle: **the areas** for the Wiltshire Alliance to govern from July 2022 should be no less, and where appropriate build on, current formal and informal arrangements at place level

## Core Scope and ICA Responsibilities

### Delegated decision making Delivery of Core Functions

Developing and Approving local strategy for development and delivery of heath and care services, and associated commissioning strategies	Oversight and transformation of services and schemes linked to delegated budgets	Membership of Health and Wellbeing Board and other local authority committees	Bring together partners around the collective responsibilities related to the wider determinants of health and tackling inequalities
Developing and Approving financial, business and operational plans including management of financial sustainability programme at place	Development clinical and professional leadership	Other statutory function oversight and strategic considerations e.g. from SEND service development or safeguarding reviews	Strengths Based Approach – building on our community assets
Managing and Approving delegated budgets, and redirecting resources to agreed priorities	Primary care development – support to Primary Care Networks	<b>Outcomes Framework</b> and Performance and Quality assurance	<b>"Make it Work in</b> <b>Neighbourhoods</b> " – agreed approach via Development sessions
	VCSE sector engagement and development	Better Care Fund – new models of care and out of hospital transformation	Prioritise the work that can only be done if we do it together!

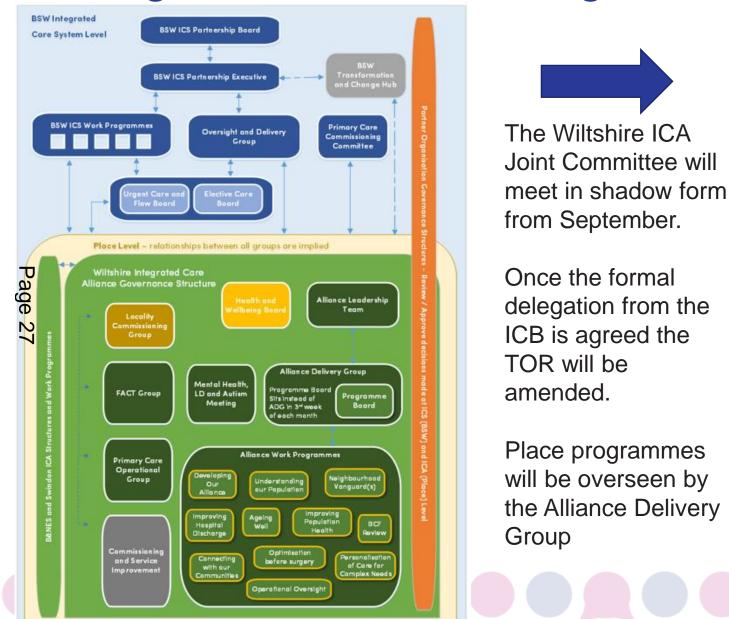

Leading transformation at place

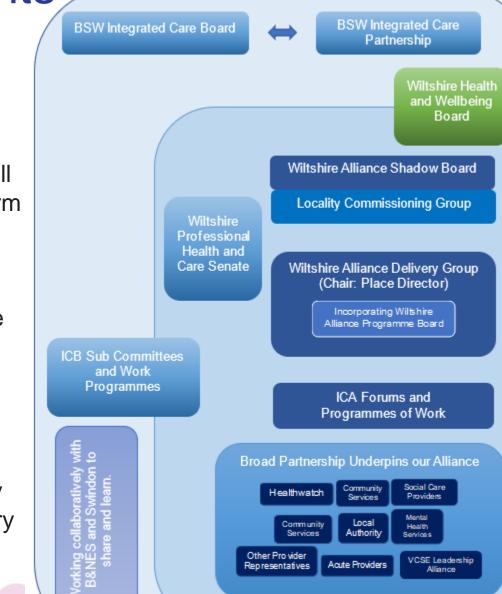

### How our Place Alliance will work

### Moving towards new arrangements

## Current mee 2022

### Alliance Leadership Team – Bi-weekly

	Salisbury NHS FT	Chief Operating Officer Director of Transformation
	RUH FT (Bath)	Associate Director Strategy Deputy Chief Operating Officer

\* Programme Board meetings (monthly) included Healthwatch, Carer Support Wiltshire and Centre for Independent Living representatives. The BCF Manager and Project workstream leads were also invited.

Our ICA will move to a combined meeting as soon as the delegation arrangements (including finance) between ICAs and the ICB are clearly understood and appropriate delegation is confirmed via Local Authority governance.

The aim is that the ICB delegates some of its functions (need to determine which) to the ICA as a joint committee. This would require formal delegation agreements between ICB and receiving organisation, and approval of those delegations from the ICB Board. The ICB remains accountable for the delegated functions, i.e. Place would have to implement necessary monitoring arrangements and hold recipients of delegations to account for delivery.

Until an ICA Joint Committee can be formed, the ICA will move towards running a **Shadow ICA Joint Committee**.

The Locality Commissioning Group will continue to meet until the formal delegation arrangements have been amended, This forum is a an existing Committee in Common between the ICB and Wiltshire Council responsible for decision making around the Better Care Fund and other joint or delegated funding arrangements between both statutory organisations.

## ICA Shadow Joint Committee

Purpose *Locality Commissioning Group remains the delegated forum	<b>Functions</b> *Decisions must go through LCG or ICB Board/sub committees until Joint Committee delegation is confirmed	Min representation	Membership level

<ul> <li>Executive leadership back into organisations for implementation</li> <li>Operational and performance oversight for services at place level</li> <li>Revelopment of combined local workforce plans</li> </ul>	Primary Care Networks (13) and out of hours	Appointed leads, PCN CDs, practice managers, out of hours COOs
Amnual and national planning process	VCSE Leadership Alliance	TBC
<ul> <li>Sorutiny: responding to requests on performance and progress from outside the Amance</li> </ul>	Healthwatch	Wiltshire Manager
• Acting as the key link between the Alliance and respective organisation – taking	Social Care Providers	Wiltshire Care Partnership
organisational information into the Alliance and briefing on Alliance work within organisations	Mental Health providers	AWP and OHP Locality leads
	Commissioning leads	Director of Locality Commissioning (NHS) and Director of Procurement & Commissioning (LA) Supporting roles from each organisation
	Alliance Pro	e Director for Place ogramme Lead

Other members e.g. Locality Finance Manager, Quality representative

Bath and North East Somerset, Swindon and Wiltshire Integrated Care Board

## **Our Work Programme**

# Page ယ္သ

## Key Priorities & Delivery Plan Description 2022-23

- 1. Financial sustainability -including joint decision making around complex care funding and BCF funded schemes
- 2. Urgent Care and Flow Delivery increased admission avoidance activity, improved flow and D2A and delivery of related schemes resulting in reduced NCTR and LOS, and robust winter planning.
- 3. Ageing Well in Wiltshire including implementation of Virtual Wards, 2hr Urgent Response, Anticipatory care and dong term conditions recovery
- 4. Primary Care National Priorities. Delivered via new primary care DES including enhanced access for PCNs Kand health inequalities.
- 5. Mental Health Implementation of community services framework continues, Annual Health check performance for SMI across Wiltshire
- 6. LD&A LD Road Map priorities, LD health checks building on improvements delivered. Early Intervention Positive Behavioural Support (PBS) for Primary Pupils in Special Schools, supporting SEND agenda.
- 7. CYP and SEND FACT delivery for Early Family help. Focus on CYP emotional wellbeing. SEND strategy and implement new SEND Health Advisors role.
- 8. Joint Strategic Needs Assessment refresh Oct 2022 to inform the HWB Strategy update and ICS strategy development
- 9. Governance and processes establishing and embedding these for the ICA.

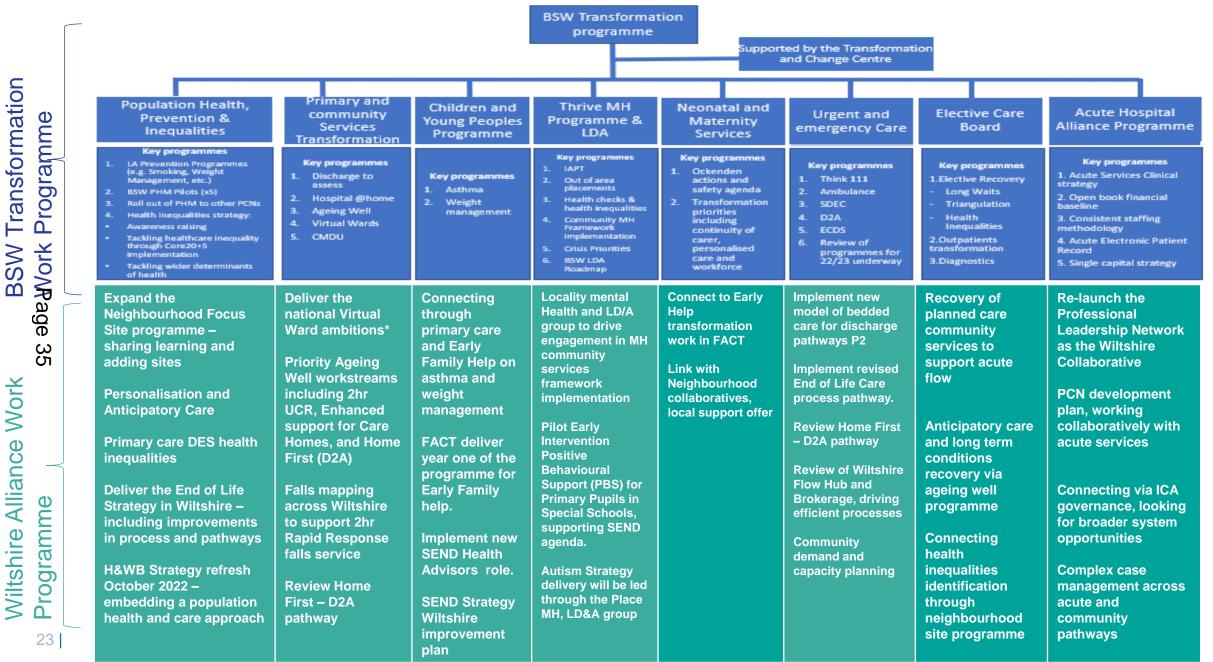

Work we are prioritising as ICA partners - may be linked to other identified priority areas

- 8. Connecting with our Communities establish routes for genuine co-production and decision making for our ICA way of working to embed People and Communities strategy and guidance
- 9. Neighbourhood Collaboratives establish more collaboratives (leading to 13 in total, with the Wiltshire learning forum fully embedded) and connecting support for High Intensity Users.
- 10. Personalisation of Care for People at the end of their lives -Revising non-clinical processes ensuring people's needs are met when and how they choose by re-defining decision and funding pathways and reconfiguring service provision - moving to a Lead Provider approach.
- 11. Ageing Well; transformation of End of Life Care, Anticipatory **Care** – reviewing and embedding good practice, supporting PCNs with new DES services, expand care home virtual MDTs and completion of Optum project.
- 12. Urgent Care and Flow Improvement programme of work to improve ability to manage system flow for Wiltshire residents - , Care Coordination, Domiciliary care provision.
- 13. Mental Health Community Services Including Mental Health **Community Framework**
- 14. LD and Autism Pilot Neighbourhood Sites will focus on increasing strong rate of annual health checks and develop and roll-out of Access Model across Wiltshire
- 15. Families and Children's Transformation work programme -Establish a clear family help offer and single brand multi-agency approach to include ICB/Wiltshire Police/Wiltshire Council/FACT.

### Towards 2023-2024

Work taking us into the coming year and towards our ambitions in how we work together

- 14. Development of response to Long Term Plan refresh - ETA October publish date. December is current required submission.
- 15. Building our Capability for Population Health and Care - embedding a population health and care led approach.
- 16. Refreshed approach to Transformation planning - including taking a population heath and care-led direction.
- 17. Alliance Development continue developing our ways of working and undertaking OD work.
- 18. Establish the Alliance Identity developing and establishing the ways we communicate and engage with people working across our place, sharing our work programme and encouraging participation.
- 19. Re-launch the Professional Leadership Network as the Wiltshire Collaborative bringing together learning from the Neighbourhood Collaboratives and offering expert advice and connection. Links with the Health and Care Senate.
- 20. Community services transformation-guided by our core Alliance principles and Place objectives, working with partners at Place and across the System to transform care models, improve outcomes and optimise use of resources

Alliance **Wiltshire** 

Bath and North East Somerset, Swindon and Wiltshire Integrated Care Board

## **Appendices**

## Our Alliance Delivery Work Programme

Programme Area and Work	Why	Outcome	Reporting and oversight
Children and Families BSW Programme to improve outcomes in key priority areas. Focus on prevention and early intervention. Developing a single brand/ integrated services working at a community level offering Early Help/support for 0-19yrs. Pilot Neighbourhood Focus Sites in Warminster and Westbury will work together to deliver this programme and establish a single brand multi-agency approach to include ICB/Wiltshire Police/ Wiltshire Council/FACT.	<ul> <li>Alliance members have identified this as a key priority area.</li> <li>BSW priority</li> <li>Improved outcomes for our population</li> </ul>	To develop a strong community of practice around community health for CYP and their families so that they are able to access support more easily and rapidly within their own neighbourhood.	<ul> <li>BSW Children and Young People's Programme – directly linked into Place</li> <li>Wiltshire FACT</li> <li>Links to Alliance Delivery Group</li> <li>LCB – we will review these a bit further once we have agreed format/membership.</li> </ul>
Learning Disabilities and Autism Focus on increasing strong rate of annual health checks with people with LD needs. Autism Strategy and Independent Living, and SEND Strategy delivery	<ul> <li>National 'must do' and key BSW priority.</li> <li>Fits with BSW Care Model</li> <li>Improved outcomes for our population</li> <li>Continue support, linked to Neighbourhood work.</li> </ul>	People with LD will be offered an annual health check in a personalised and accessible way, meaning their health is maintained and emerging concerns are identified at an early stage.	<ul> <li>Links to LD&amp;A/MH locality Group</li> <li>BSW LD&amp;A Programme Board</li> <li>Links to Alliance Delivery Group</li> </ul>
Merrial Health Community Services Framework Long erm Plan's vision for a place-based community mental health model, and how community services should modernise to offer whole-person, whole-population health approaches, aligned with PCN approach. Development and roll-out of Access Model across Wiltshire. Development of PCNs, and the MH ARRS roles	<ul> <li>National 'must do' and key BSW priority.</li> <li>Fits with BSW Care Model</li> <li>Improved outcomes for our population</li> <li>Continue support, linked to Neighbourhood work.</li> </ul>	Wiltshire residents can expect seamless access to mental health support and assurance that they will be directed to the appropriate services from the outset.	
<ul> <li>Ageing Well in Wiltshire</li> <li>Ensure implementation of the Long-Term Plan ambitions in Wiltshire</li> <li>Co-develop Virtual Ward model and ensure achievement of national target for Wiltshire by Dec 2023 (40beds per 100k)</li> <li>Pathway 2 Bed Model Implementation – revised framework and model for commissioning care home beds.</li> <li>Ensure 2hr Crisis Response fully functional across Wiltshire, maximising effectiveness.</li> <li>Progress Anticipatory Care roll-out across identified conditions – both Virtual Wards and Care Home MDTs</li> </ul>	<ul> <li>National 'must do' requirements</li> <li>Key to supporting system flow</li> <li>Fits with BSW Care Model</li> <li>Improved outcomes for our population</li> <li>Some schemes have moved to 'BAL / Service Development' but this is recognised as a high priority area.</li> </ul>	<ul> <li>Residents in Wiltshire will be supported to stay at home or in place or usual residence when that is the best place for them to be – unnecessary admissions will be avoided.</li> <li>People requiring bedded care either following an inpatient stay or because they require care but not hospital admission will be able to access this rapidly and in line with best practice care standards.</li> <li>Patient flow will be supported by a flexible and responsive community offering.</li> </ul>	Ageing Well in Wiltshire     Programme Board (WHC-lec     Locality Commissioning

Programme Area and Work	Why	Outcome	Reporting and oversight
Urgent Care and Flow Improvement Full participation in BSW-led work streams: - Front door services, in-reach to acute pathway, Referral processes, Data and information sharing, BSW principles and Escalation process Development and delivery of Locality Improvement Programme as a result of the learning from the SAFER / MADE weeks in May & June 2022.	and flow capability and capacity.	Wiltshire residents will benefit from effective, responsive and integrated services which are able to support maximising capacity within our acute trust partners. Ambulances will not wait at ED front doors.	BSW Discharge to Assess Programme, monitored via the Urgent Care and Flow Board Wiltshire UEC Discharge and Flow group
Note – locality driven work focuses on actions from Sup resources, review of pathway efficiencies and Pathway		development and implementation of discharge c	ommunications, engagement and
End of Life Care Process Improvement Revising non-clinical process pathways to ensure that people are able to have their needs met when and how they choose by re-defining decision and funding pathwess and reconfiguring service provision.	<ul> <li>Improved experience of individuals and their families</li> <li>Better use of resources both colleagues and funding.</li> <li>Aligned with BSW strategy and care model</li> </ul>	<ul> <li>People will have rapid access to appropriate and safe care at the end of their lives, reducing waiting time for discharge and enabling them to die in the place of their choosing.</li> </ul>	BSW End of Life Care Group & Population Health, Prevention and Inequalities programme. Wiltshire Ageing Well programme (Wiltshire End of Life Working Group)
Alliance Neighbourhood Collaboratives Born from the Neighbourhood Focus Site project and the Optum work, this model supports neighbourhoods (PCN footprints) to establish collaborative groups, working in a population-health management focussed way to make changes aimed at closing population health gaps. Fully established, 13 collaboratives would be working across Wiltshire will a fully formed model of support, leadership and networking to learn and share. Proposal is to bring 2 more 'test and learn' sites on in the next 12 months.	Links with hational requirements of     primary care	<ul> <li>Wiltshire residents will be able to inform and affect local change to improve services that matter to them.</li> <li>Neighbourhoods are able to work together to identify and reduce health and care gaps by working together without boundaries.</li> <li>Professionals and communities have a way of working together to design and implement solutions to inequality gaps and to work through delivery of key required changes.</li> </ul>	Alliance Delivery Group Links to BSW Population Health, Prevention and Inequalities programme.

Connecting With Our Communities Enabling workstream to underpin our Alliance way of working. This group will work to establish multi-way links and conversations with our communities and colleagues, supporting the other work streams and way of working across our partnership. Will develop and implement the Wiltshire delivery of the People and Communities Strategy/ Directly links and supports the Neighbourhood Collaborative Work as an enabler and supports the Council's focus on improving outcomes in areas of highest deprivation.	important to people living and working in	<ul> <li>made following engagement and discussion with our communities of staff and residents.</li> <li>Our residents will know where and</li> </ul>	Links to BSW engagement strategy group
<ul> <li>Alliance Development</li> <li>Broaction ork stream supporting the ongoing development of the Alliance. This includes developing supporting resources and activities:-</li> <li>Ongoing programme of ICA development and face to face meetings</li> <li>Revising the Programme approach</li> <li>Developing a communication and engagement plan with defined pathways for sharing information and engagement</li> <li>Ongoing relationship development across partners.</li> <li>Continuing work with VCSE partners</li> <li>Establishing the revised Alliance Delivery Group and Joint Committee</li> </ul>	Underpinning work to support the effective performance of our Alliance and our work programme.	We will work together in our Alliance	ICA Joint Committee

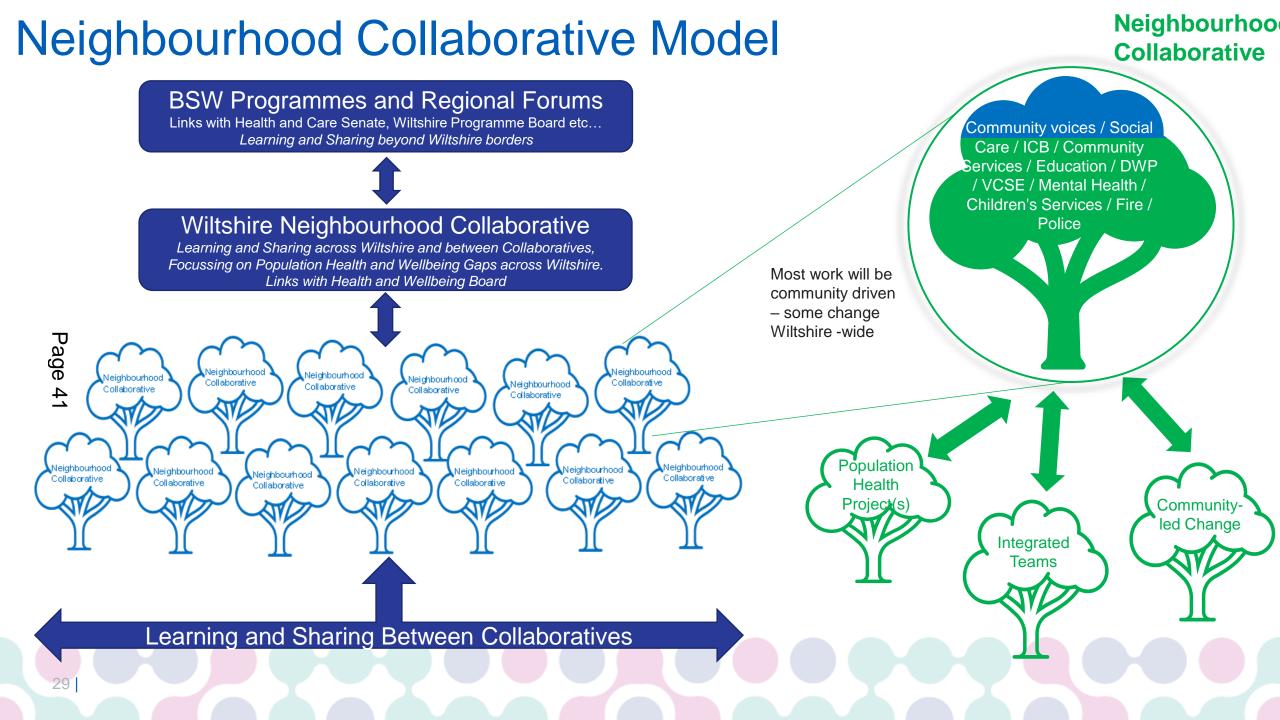

- Re-launching the Professional Leadership Network meetings

## **Tackling Inequalities**

We are committed to reducing Health and Wellbeing inequalities. This is embedded in our principles and ways of working.

We are developing a key Transformation programme to enable and support neighbourhoods in working together on what matters to them – Our Neighbourhood Collaborative programme is taking a sustainable approach to driving long term change at local level.
