Purpose of Report

To agree the schemes to be included in the Council's 2022/23 Highways Capital Programme.

Consultation

Wiltshire's third Local Transport Plan (LTP) was developed in consultation with local councils, community groups and other stakeholders. The Highways Capital Programme has subsequently been developed to reflect the aims of LTP3, and the transport aspirations of local people.

Many of the improvement projects recommended for funding in 2022/23 have been identified by the local community through the development of community area plans, area transport strategies, and school travel plans, or through the Area Board's Community Area Transport Groups (CATG).

The proposed highways major maintenance programme is based on identified need, and the main surfacing proposals have been reviewed by the relevant Area Boards or the local CATG.
