HT-06-17 - PROPOSED VERTICAL TRAFFIC CALMING, BRATTON ROAD, WEST ASHTON

Purpose of Report

To consider comments received in relation to proposals to install raised traffic calming features on Bratton Road, West Ashton, as advertised in accordance with the Highways Act 1980, Section 90A.

Consultation

The proposal was subject to formal advertisement between 20 January and 13 February 2017. During the advertisement period a total of five items of comment were received, of which one was an objection. This report deals with the comments made in relation to the proposed calming features.

Options Considered

To:

- (i) Proceed with the proposals as advertised.
- (ii) Not proceed with the proposals.

Reason for Decision

It is recommended that the proposals be implemented as advertised with an additional carriageway level feature to be considered at a central location within the village. The concerns raised by the objector can largely be mitigated during detailed design. Other comments are in support and predominantly request an additional feature.

DECISION MADE

DECISION MADE

I approve that the proposal be proceeded with as advertised.

This decision was published on 17 March and will come into force on 25 March 2017.

The following supporting documents are attached:

- HT-06-17Report
- Appendix1-ProposalPlan
- Appendix2-List_of_Objectors_and_Supporters
- Appendix 3 Comments received and officer comments
