Brief description

Seminar on the Voluntary and Community sector

This session will be an excellent opportunity for members to gain a greater insight into the work of the Council's corporate VCS Unit, the role and profile of the voluntary and community sector in Wiltshire and how the Wiltshire Compact helps underpin the relationship between the sectors as well as the council's relationship with the Voluntary and Community Sector and the wide range of work we undertake with them.

Did you know, for example, that in 2009/10 the council invested over £22million in the sector either through commissioning services or providing grant aid?

With contributions from the VCS Unit, some of our key Voluntary Sector colleagues and the Chair of the Wiltshire Compact Board, this seminar will provide a fascinating insight into this key area of the council's work and one that will become increasingly important as we seek to deliver the coalition government's Big Society agenda.
