

BYWAY 12, AMESBURY, WILTSHIRE:
(PROHIBITION OF RIGHT HAND TURN) ORDER 2015

COMMENTS OF OBJECTION

One letter of representation was received in objection to the Experimental Order and is carried forward to this consultation on the Permanent Order.

Principle of Objection	Officer Comment	Comment reference
<p>I am against this proposal and object to it being put into place even as an experiment.</p> <p>It will impact even more on people who wish to visit Stonehenge. In my opinion the site should be free for everyone to visit. This proposal seems like just another way to inhibit access to the stones.</p> <p>It is ridiculous that this proposal should even be considered. One more scheme by Wiltshire Council to make money by hook or by crook.</p>	<p>The Experimental Order was originally implemented on the ground of Highway Safety, not to prohibition further access to the Stonehenge site.</p> <p>This Permanent Order is proposed for the same reasons as the Experimental Order.</p> <p>The Council has no financial gain from this scheme.</p>	<p align="center">A</p>
