A resident	A resident who used the old sports centre car park for personal use, along with several other properties on Wilcot Road. Would find it difficult to cope with a three hour limit on the car park. Currently has some alternatives but struggles to park there during week days.	<p>Council response – It is important that there is sufficient parking for those wishing to access the community campus. The car park does not have sufficient capacity to accommodate resident parking; this was not its intended purpose and as such an allowance has not been made.</p> <p>Restricting the stay within the car park during operational hours will help ensure we can effectively manage the car park to ensure those wanting to access the facility are not inhibited from doing so.</p>
