1.	Support – in support of proposals and requesting more waiting restrictions into Acacia Crescent and Meridian Walk.	Support for proposal noted. Extension of the proposed restrictions would require support from Trowbridge Town Council and further formal consultation.
2.	Objection – Concerned the proposals will displace traffic further along Brook Road and into side streets. Believes there may be a solution in reducing the volume of through traffic using Brook Road as an alternative to the A361 and A366 at the Trinity Church intersection.	It is accepted that the proposals may disperse traffic elsewhere. The purpose of the proposals is to allow safe passage of vehicles along Brook Road and allow pedestrians safer areas to cross the road. Extension of the proposed restrictions and any potential changes to traffic volumes would require support from Trowbridge Town Council and further formal consultation.
3.	Objection – Concerned the waiting restrictions will force cars to park further along Brook Road and into side streets. Comments that the waiting restrictions should be on the Acacia Crescent side of the road only, to help keep traffic moving better. Also raised concerns about the amount of HGVs using Brook Road and requesting a weight limit along Brook Road.	Please see comment Ref 2. Any proposed weight limits along Brook Road would require support from Trowbridge Town Council and further formal consultation.
