

Transforming Maternity Services Together 

Our proposal for change

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together 

Background

- We began talking to women and families in 2017 about their experiences of pregnancy, labour and birth across the counties of B&NES, Swindon and Wiltshire
- We have now worked with over 2000 women and families, plus our staff and partner organisations
- Their feedback, together with national guidance such as 'Better Births', has led to development of a proposal for future maternity services across the BSW region
- Partner organisations include Great Western Hospital Trust, Salisbury District Hospital, Royal United Hospital Bath, and B&NES, Swindon and Wiltshire CCGs

Bath and North East Somerset, Swindon & Wiltshire

Transforming Maternity Services Together

Changing needs of our population

- The average age of a woman giving birth is now 35
- More and more high risk pregnancies (e.g. high blood pressure, diabetes, obesity) which need medical support in a hospital setting
- Clinical deliveries, such as ventouse and forceps, are not possible at Free-standing Midwifery Units, nor is epidural pain relief
- Increasing pressure on services in our Obstetric Units at Royal United Hospital and Salisbury District Hospital

Bath and North East Somerset, Swindon & Wiltshire

Transforming Maternity Services Together

Births in 2017/18

65%

Mother or baby at increased risk of health problems

50%

First time mothers who need to transfer from midwife led community hospital unit to obstetric unit in hospital for extra medical support with their birth

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together 

Births in 2017/18

- 11,200 births in B&NES, Swindon and Wiltshire

85%		Obstetric Unit (of these 65% were high-risk women and 20% were low-risk women)
6%		Freestanding Midwifery Units (Royal United Hospital)
7%		Alongside Midwifery Unit (Great Western Hospital)
2%		Home births

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System 

Transforming Maternity Services Together 

Post-natal community hospital beds

- 9 Post natal beds available in the community:
 -  5 in Paulton  4 in Chippenham
- Originally intended to provide breastfeeding support only
- Between January and December 2017, they were empty 95% of the year
- 89 ante and post natal beds available for women who need medical support before and after their baby is born – at Royal United Hospital, Great Western Hospital and at Salisbury District Hospital

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System 

Transforming Maternity Services Together

Right staff, right place, right time

- We don't always have right staff in the right place at the right time to offer the services women want to receive and we want to provide. This is a particular challenge for Royal United Hospital
- Staff have told us what works well and what needs to change
- We have the right number and mix of staff, but they're not based in the right locations, so we can't provide service we want to and is not efficient use of our staff
- RUH staff currently supporting births across four community midwifery units, the hospital obstetric unit and home births, 24 hours a day, 7 days a week

Bath and North East Somerset, Swindon & Wiltshire Local Maternity System

Transforming Maternity Services Together

RUH in a 24 hour period – actual staff numbers, clinics, home visits, births

Transforming Maternity Services Together

Issues

- Staff too busy looking after empty beds and buildings or travelling from community hospitals with very low births to extremely busy obstetric units, often at short notice, which they dislike
- Frustrating for staff – effect on morale, retention and skills
- We want to increase opportunity for home births but staff are not able to promote and support due to existing working patterns
- Birth rates expected to increase – an additional 200 births a year
- Due to small number of births in community hospitals, cost of supporting these births is higher than Obstetric unit
- We're not giving women the service they want

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together

Our proposal 1

- Continue supporting births in 2, rather than 4 Community hospital units
- Women will be able to deliver their baby at **Chippenham** or **Frome**
- Antenatal and postnatal clinics will continue at Chippenham, Trowbridge, Frome and Paulton
- Trowbridge and Paulton proposed as pilot sites for our new community hub model of care
- Detailed analysis to support decision to continue to support births at Chippenham and Frome

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together

Our proposal 2 & 3

- To create **two new Alongside Midwifery Units**, one at **Salisbury District Hospital** and one at **Royal United Hospital Bath**
- Will provide more women with opportunity for midwife-led birth. Two new units will be in addition to the White Horse Alongside Midwifery Unit at Great Western Hospital
- Allows women easy access to obstetric unit if required, without need to be ambulated whilst in labour

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together **NHS**

Our proposal **2 & 3**

Around 800 babies are born at our obstetric units in Bath, Salisbury and Swindon every month

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System

Transforming Maternity Services Together **NHS**

Our proposal **4 & 5**

- We propose to **improve our range of antenatal and postnatal services**, e.g. more breastfeeding support, to women in their own homes, and to develop community hubs to enhance our antenatal and postnatal care
- We want to **support more women to give birth at home** if that is their preferred choice

 **2%**
women have their baby at home

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System

Transforming Maternity Services Together 

Our proposal 6

- We're proposing to **replace our community postnatal beds at Chippenham and Paulton** with support closer to or in women's homes.
- Women who need to be admitted for medical treatment after giving birth would continue to be treated at their local obstetric unit at one of the acute hospitals at Bath, Salisbury or Swindon

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System 

Transforming Maternity Services Together 

Our proposal 6

9 
there are 4 postnatal beds at the FMU in Chippenham and 5 at Paulton FMU

95% 
of the time beds in our FMUs are unused or empty as women rarely need to stay in community hospital after giving birth

89 
beds available at our Obstetric Units at our local acute hospitals for women who need them

 Bath and North East Somerset, Swindon & Wiltshire Local Maternity System 

Transforming Maternity Services Together

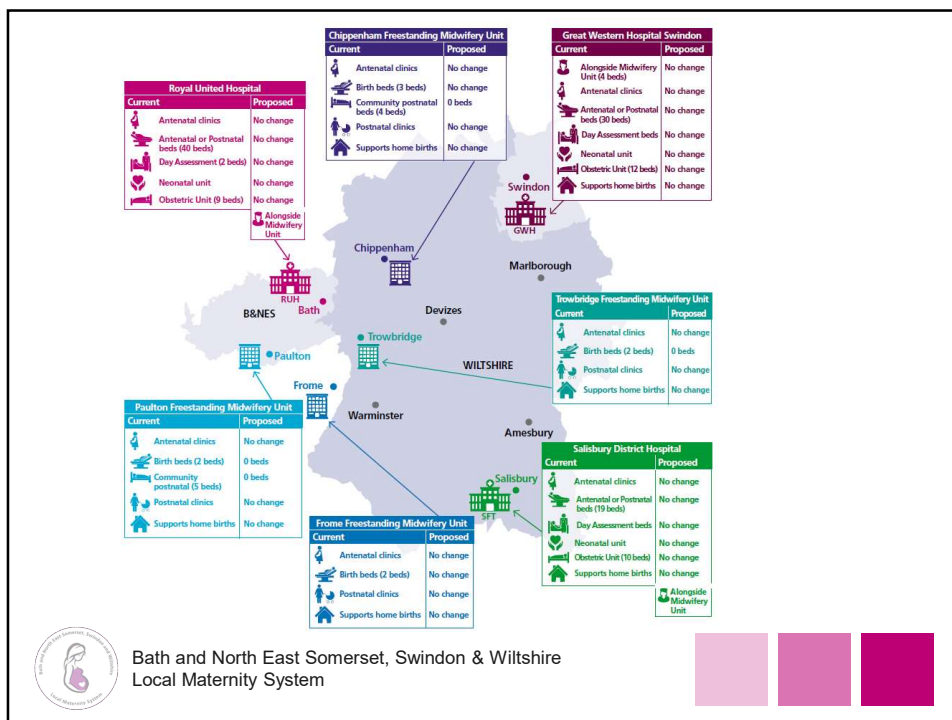

Benefits of our proposal

- We can provide **more choice** for more women across our area about where and how they are supported **before, during and after the birth of their child**
- We can make **better use of our resources and workforce** so we can further improve our antenatal and postnatal and birth services
- We can **improve continuity of care and carer** for women
- We can **enhance and improve our home birth service**
- **Free up our staff**, so they are able to **maintain their skills, improve their motivation** and provide the services they want to women who need them

Bath and North East Somerset, Swindon & Wiltshire Local Maternity System

Bath and North East Somerset, Swindon & Wiltshire Local Maternity System

Transforming Maternity Services Together

Future finances

- We are **NOT** planning to **reduce how much we spend** on maternity services
- We are **NOT reducing the numbers of staff** we have
- We are **NOT closing any buildings**
- We want to make more efficient use of our existing budget, resources and our staff to provide more services, not less for women and families across our area.
- Some of the changes we are proposing are because certain services are underused and we are often staffing empty buildings and empty beds

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together

Future finances

£42.6m spent on
maternity services
across B&NES, Swindon
and Wiltshire in 2017/18

11,000 women
supported to give birth
locally in 2017/18

Bath and North East Somerset, Swindon & Wiltshire
Local Maternity System

Transforming Maternity Services Together

If we don't change ...

- There will continue to be a difference in choice, quality and access from across B&NES, Swindon and Wiltshire
- Miss out on: meeting recommendations and best practice set out in national guidance, improved continuity of care and carer, improved birth place environment, improved support for breastfeeding
- The current model will continue to cost us £1million more a year

We won't be providing the changes that women and families and our staff have told us they want us to make
