Where everybody matters

Wiltshire Council

HEALTH AND WELLBEING BOARD

MINUTES OF THE HEALTH AND WELLBEING BOARD MEETING HELD ON 14 DECEMBER 2018 AT KENNET ROOM - COUNTY HALL, BYTHESEA ROAD, TROWBRIDGE, BA14 8JN.

Present:

Cllr Baroness Scott of Bybrook OBE (Co-Chair), Dr Richard Sandford-Hill (Co-Chair), Dr Toby Davies, Angus Macpherson, Tracy Daszkiewicz and Cllr Ben Anderson

Also Present:

ACC Craig Holden and Leighton Day

79 Chairman's Welcome, Introduction and Announcements

The Chair drew the meeting's attention to the allocation of £15,978,000 from central government to Wiltshire CCG for the Trowbridge Integrated Care Centre. The money would support dedicated staff through the redevelopment and modernisation of buildings and allow for the launch of additional services.

80 Apologies for Absence

Apologies were received from Cllr Jerry Wickham, Dr Andrew Girdher, Dr Carlton Brand, Dr Catrinel Wright, Dr Gareth Bryant, James Scott, Christine Blanshard, Andy Hyett and Terence Herbert.

Nerissa Vaughan was substituted by Leighton Day and CC Kier Pritchard was substituted by ACC Craig Holden.

81 Minutes

The minutes of the previous meeting held on 17th October 2018, previously circulated, were considered.

Resolved

To approve the meeting as correct.

82 **Declarations of Interest**

There were no declarations of interest.

83 **Public Participation**

There were no questions from the public.

84 <u>Winter Pressures</u>

Jo Cullen gave a presentation on the progress being made in tackling winter pressures across the health services in Wiltshire.

Matters raised during the presentation and discussion included: whole system engagement in the process; the timescale and success of the 1st, 2nd and 3rd submissions; risk assessments of the winter plans of system providers; the use of weekly South System Senior Decision Makers meeting/calls; an overview of current Salisbury Foundation Trust (SFT), Bath Royal United Hospital (RUH) and Swindon Great Western Hospital (GWH) performance; the Bath and North East Somerset, Swindon and Wiltshire (BSW) 111 Festive Activity Forecast; the South Western Ambulance Service (SWAST) predictions in regards to Wiltshire activity; ambulance activity and conveyance; ensuring paramedics have direct access to Clinical Assessment Service (CAS); primary care plans and in particular working with GPs; Wiltshire Council ASC Winter Funding; the South Wiltshire Community Review and Emergency Care Intensive Support Team (ECIST) support and flu preparations and in particular vaccination uptake, the Communications Plan and workforce availability and sickness.

In answer to a question from the Chair, it was noted that GWH was more prepared than previous years and extensive work had been done to mitigate the risks associated with the festive period. It was agreed that more work needs to be done across the Board to engage the public in what it can do to help reduce demand in the winter months.

It was noted that work was being done at GWH to dedicate pharmacists to particular wards. In communities, the challenge lies in making sure pharmacies are open in the evenings during the holidays and work was being done to mitigate this.

In response to a question from the Board, it was noted that demand in mental health services typically reduces over the holiday period and increases in the early weeks of January. It was also noted that work was being done in regards to bed configuration and out of areas, and that Medvivo are to look at how the mental health pathway operates and how services can be better integrated.

Resolved

To note the progress to date.

85 Date of Next Meeting

The next meeting is due to be held on Thursday 7th February 2019 at 9.30am.

86 Urgent Items

There were no urgent items.

(Duration of meeting: 2.30 - 3.30 pm)

The Officer who has produced these minutes is Craig Player, of Democratic & Members' Services, direct line 01225 713191, e-mail <u>craig.player@wiltshire.gov.uk</u>

WILTSHIRE SUSTAINABILITY (WINTER) PLANNING

HWB 14th December 2018 'The right healthcare for you, with you, near you.'

1st submission (06.07.18)

- Builds upon lessons learnt within BSW from best practice and from winter 2017- 2018
- Evaluates winter resilience schemes from the 2017-2018 with recommendations
- Builds on the delivery and potential of Integrated Urgent Care as commenced May 2018
- Incorporates the on-going work on reducing length of stays in hospital and will build on the demand and capacity analysis across STP
- Confirm the 5 priorities through LDB
- Wiltshire data and narrative input into BaNES and Swindon system plans

2nd submission (31.08.18)

- Following feedback from NHSE review (08.08.18)
- Review against KLOEs

Page

ത

- LOS improvement plan - actions and dashboard (for sign off LDB 16.08.18)

3rd submission (05.10.18)

- BSW rep at Regional Winter Event 6th September
- NHSE feedback 14th September / Review against Pauline Phillips Preparation for Winter letter 7th September
- Reviewed at LDB 18th September
- Separate returns to NHS on winter planning: primary care, digital and quality / patient safety
- Taken to WCCG Governing Body in public and PCCC 25th September
- CCG deep dive to understand what is driving demand across systems by postcode, diagnosis, referral and age
- Review of Demand and Capacity modelling for the South (as part of STP work)
- IA service commenced 1st October
- Weekly Expert Panel commenced 3rd October

4th Iteration of Winter Plan for Wilts LDB (20.11.18)

- Q2 IAF BSW Focus on Winter 9th October
- LDB focus on Risk Summit 16th October to refine the Risk Register
- Winter Plan on Wiltshire Health and Wellbeing Board 17th October
- Escalation Training (NHSE) 13th November cancelled
- SWAST winter workshop 13th November
- ECIST Community Review 27/28 November
- Winter Plan JCB (28.11.18), WCCG GB in Public (27.11.18) and HWB (14.12.18)

2

ALL SYSTEM WINTER PLANS

- System provider winter plans and escalation action cards reviewed and internally signed off at A&E Local Delivery Board (16.10.18)
- Weekly South System Senior Decision Makers meeting/call
- South System Action Plan in place weekly tracker
- Actions from Expert Panel (see later)
- Winter assurance document submitted NHSE (23.11.18)
- Input and review of BaNES/RUH and Swindon/GWH plans
- Review at LDB of key focus areas

BSW 111 FESTIVE ACTIVTY FORECAST

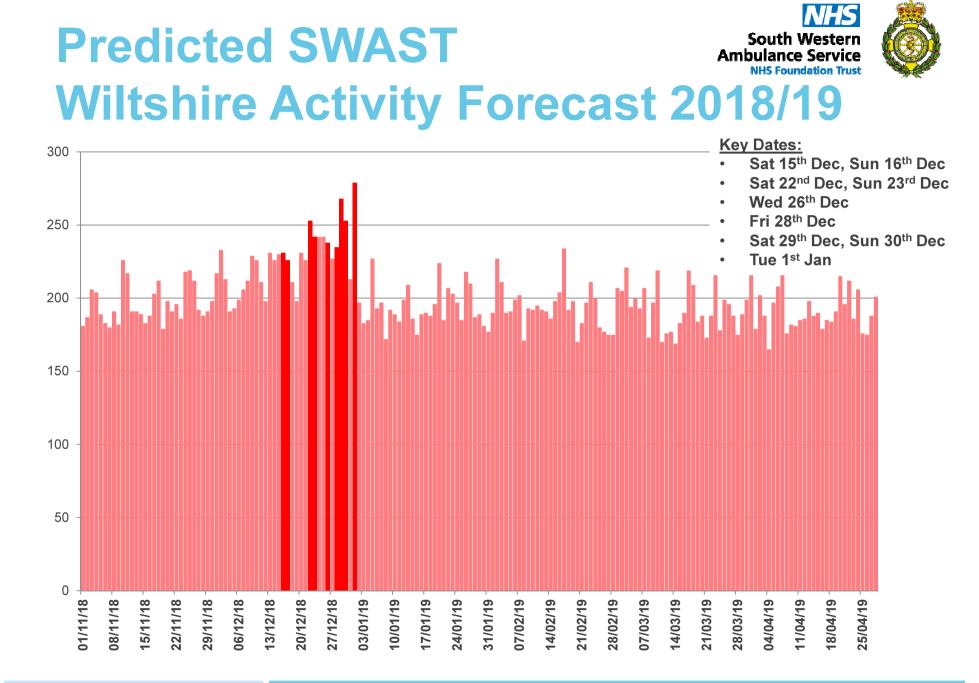

- Demand forecasts have been updated utilising last years activity (previous provider) and the demand profile experienced over the last 6 months.
- The graph below shows the forecasted volume of calls per day to 111 over the Christmas and New Year period (not including HCP direct calls to the CAS).
- Days where peak demand is expected correlate with those forecasted by SWASFT.
- One of the challenges is the pattern of the Bank Holiday days and the impact on public behaviour. For example, we have not had this pattern (with a 'normal' working day between the weekend and Christmas Day / Boxing Day) since 2007 therefore forecasting how that will impact activity Is very difficult. Many expect it to be treated like a five day Bank Holiday which is why the 24th prediction is much higher than other weekdays.

BSW 111 FESTIVE ACTIVTY FORECAST

The below heat map shows the forecasted demand profile of 111 calls per hour. This is again based on arrival patterns within existing services.

		111 BSW CALL FORECAST

Predicted SWAST ED Conveyance

Forecasted SWAST ED Conveyance to SFT

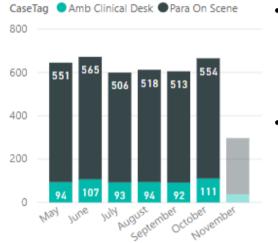

AMBULANCE ACTIVITY & CONVEYANCE

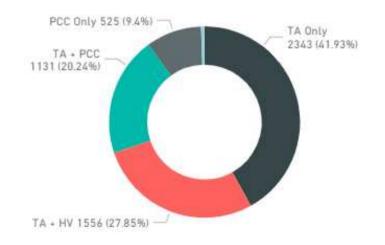

Medvivo & SWAST have commenced two key work streams in terms of the BSW Integrated Urgent Care Service (including 111) and the Ambulance Service:

- 1. Ensure Paramedics make full use of their direct access to the Clinical Assessment Service (CAS) 24/7 in order to work together to avoid conveyance / admission where appropriate. Update on next slides.
- Further reduce the number of referrals from 111 to the Ambulance Service. Awaiting a risk profile for Cat 2 calls from Medical Director SWAST to generate a list of suggested Cat 2 Dx codes that could be held at 111 for clinical review along with a defined time period within which that review must take place. Once this is available it will be presented to the IUC Clinical Governance Group for sign off (4th December 2018).

AMBULANCE CAS REFERRALS

- All healthcare professionals have direct access to the Clinical Assessment Service (CAS) via a dedicated number. Paramedics are able to request a call back from a clinician within the CAS (to them or the patient) e.g. to discuss admission avoidance or to directly book a face to face appointment for a patient at one of the BSW Primary Care Centres.
- The graph on the left shows the number of calls to the BSW IUC CAS from the Ambulance Service. Medvivo has seen a small in uplift in referrals since SWAST circulated updated communications encouraging the use of the line. Designs for a sticker to be put in Ambulances with the contact details on have been submitted to SWAST to give a further prompt to crews.
- The diagram on the right measures the clinical input provided by the IUC Service for the referrals received directly into the CAS from the Ambulance Service. On average;
- 42% receive a telephone consultation only
- 20% receive a telephone consultation followed by a face to face assessment at an OOH primary care centre
- 9% are directly bookended into a face to face assessment at an OOH primary care centre
- 28% receive a telephone consultation followed by a home visit
- This type of data, combined with activity profiles will be utilised to support resource planning moving forwards.

AMBULANCE CAS REFERRAL OUTCOMES

The table below shows the outcomes of cases for patients referred by the Ambulance Service via the direct line.

Outcome	Μ	ay	Ju	ne	Ju	ly	Aug	gust	Septe	mber	Octo	ober	6 Mont	h Total
No follow up - call again as needed	314	49%	285	42%	252	42%	286	47%	255	42%	282	42%	1674	41%
OGP follow up	192	30%	205	31%	168	28%	180	29%	201	33%	223	34%	1169	29%
Referred to Secondary Care (SC)	57	9%	98	15%	66	11%	60	10%	79	13%	75	11%	435	11%
Information Only	49	8%	49	7%	71	12%	47	8%	42	7%	49	7%	307	7%
Referred to Emergency Services	7	1%	8	1%	15	3%	15	2%	13	2%	14	2%	72	2%
Referred to / advised to attend community service	16	2%	11	2%	15	3%	9	1%	10	2%	8	1%	69	2%
Failed Encounter / DNA	9	1%	13	2%	6	1%	11	2%	5	1%	13	2%	57	1%
Referred to Mental Health Service	0	0%	2	0%	4	1%	1	0%	0	0%	1	0%	8	0%
Referred to Palliative Care Service	1	0%	0	0%	1	0%	2	0%	0	0%	0	0%	4	0%
Referred for Community Bed Admission	0	0%	1	0%	1	0%	1	0%	0	0%	0	0%	3	0%
Grand Total	6	45	6	72	59	99	63	L2	60)5	66	65	40)95
Non-conveyance Supported	523	81%	504	75%	441	74%	479	78%	466	77%	514	77%	2927	71%

It demonstrates excellent outcomes in terms of supporting non-conveyance / admission avoidance.

41% of cases were closed with no follow up required and 71% were either closed with no follow up or referred to a primary care or a community service.

Information only cases are those where a Paramedic calls to provide an update that may support any future patient contacts or to ask for information to be passed to the patient's own GP.

All cases closed following a failed encounter undergo a risk assessment by a member of the Clinical Team. For medium or high risk cases this includes contacting allied services such as local hospitals and if required arranging a welfare visit.

AMBULANCE CAS REFERRAL OUTCOMES

Some primary outcomes can then be further split by a secondary outcome such as speciality and a tertiary outcome such as location as per the below tables

Referred to Secondary Care (SC)	May	June	July	August	September	October	6 Month Total	6 Month %
ED	36	58	42	40	42	43	261	60%
Medics	7	15	14	8	18	16	78	18%

Other Speciality	0	3	0	0	1	0	4	1%
ENT	0	0	0	3	0	0	3	1%
Gynae	1	0	0	0	0	2	3	1%
Obstetrics	1	0	0	0	0	1	2	0%
Ophthalmology	0	1	0	0	0	0	1	0%
Urology	0	0	0	1	0	0	1	0%
Total	57	98	66	60	79	75	435	100%
Referred to Secondary Care (SC)	May	June	July	August	September	October	6 Month Total	6 Month %
Royal United Hospital	18	36	30	27	36	29	176	40%
Great Western Hospital	17	28	18	16	22	23	124	29%
Salisbury Foundation Trust	19	29	15	14	20	20	117	27%
Other	3	5	3	3	1	3	18	4%
Total	57	98	66	60	79	75	435	100%
Salisbury Foundation Trust	May	June	July	August	September	October	6 Month Total	6 Month %
ED	10	14	5	8	7	10	54	46%
Medics	2	8	4	3	6	5	28	24%
Paeds	5	4	5	1	1	4	20	17%
Surgeons	1	1	1	1	6	1	11	9%
ENT				1			1	1%
Gynae	1						1	1%
Ophthalmology		1					1	1%
Other Speciality		1					1	1%
Total	19	29	15	14	20	20	117	100%

This data provides useful information in order to identify opportunities to improve patient pathways such as increasing the number of referrals direct to specialities where possible to prevent presentation at ED.

16

PRIMARY CARE PLANS

- Guidance to all practices for repeat medication requests to avoid patients running out of medication
- Local primary care initiatives to support residential and nursing homes to reduce avoidable attendances and admissions
- Plans in place to support patients with longterm conditions and high-risk groups, including monitoring illness patterns in the local community and weather changes that may affect patient cohorts;
- Practices are clear on their Business Continuity Plans covering the risks, impacts and associated plans for managing disruptive incidents such as staff sickness and absence, and adverse weather, and loss of essential services.

ALL meds requested are on a 28 day repeat cycle Patients on a 56 day cycle d are not CDs or "when required" items Or if any med given from acute, CDs, "when required" meds Increase to 56 days, issue and then revert to 28 Advise patient when they are due next and explain that we'll exceptionally accept requests Patient must understand this is an exception, we 14 days in advance due to Christmas to ensure are not permanently increasing their Rx they get their Rx on time All painkillers, especially those that are Codeine If a "when required" item is given regularly (e.g. based (e.g. Zapain), to be treated as "when paracetamol, Epimax), check with pharmacist if required" items. However, consider can be increased to cover 28 extra days Diazepam and Zopicione to be treated as CDs All acutes to be referred to pharmacists as per Methotrexate, Azathioprine, Sulfasalazine, usual procedure, pharmacist may decide to Leflunomide & Lithium to be queried with pharmacist before issuing extra increase supply to cover Xmas holiday

Hathaway Medical Centre

Published by Aceso Hathaway 🖓 - 19 hrs - 🕥

It's nearly Christmas \bigstar We will be starting to issue two months of medications to see people through the Christmas period. There are some medications that we cannot do this for but we will advise you at the time. Start thinking about planning your medications for Christmas - especially If you are going away. If you have relatives coming to stay remind them to bring their medications with them - this makes Christmas a whole lot less stressful for everyone!

Wiltshire Council ASC Winter Funding

For Wiltshire, the allocation of the adult social care winter pressure grant is £1.8m. This funding has specific grant conditions with an aim to reducing delayed transfers of care and cannot be used for recurring expenditure. The initiatives the government have announced to date are:

- home care packages to speed up patients move out of hospital
- re-ablement packages, which support workers to help patients carry out everyday tasks and regain mobility and confidence
- home adaptations, including new facilities for personal care, such as adapting a shower room if a patient has limited movement

Wiltshire Council Proposals:

- 1. Prevention
- There are currently in excess of 100 social care clients in the community waiting for care packages.
- A proportion of the grant commissioning additional market capacity as well as additional re-ablement capacity to prevent these people being admitted to hospital.

2. Hospital Flow and Discharge

• The remainder of the grant on improving hospital flow and social care discharges from acute settings. This will be allocated based on the proportion of the social care DTOC numbers over the last three months:

ASC Delayed days	3 Month Average
GWH	12%
RUH	15%
SFT	42%
AWP	7%
Community Ho	ospitals 22%

FLU UPDATE

As of week ending 16/11/2018 influenza rates are the same as the same time period last year. The rate of Respiratory Syncytial Virus (RSV) is less than the same time period last year, but is rapidly increasing.

Outbreaks across Wiltshire have been limited to 3, all 3 were reported in care homes, 1 was confirmed RSV, 1 confirmed Chest infections and final one is currently awaiting the results of swabs taken. Admission to secondary care due to influenza remain low at this point in time. The below graph illustrates the confirmed laboratory influenza rates.

Page 28

The below graph represents the Australian (southern hemisphere) influenza season for 2018. The red line shows the current confirmed laboratory influenza rate. The northern hemisphere mirrors the southern hemisphere for influenza and the predictions for influenza season appears to be that of a significantly lower circulation in comparison to 2017/18.

Flu Vaccine uptake rates

- The below table indicates the current vaccine uptake rates for Wiltshire
- This year has been challenging due to the staggered delivery for the aTIV vaccine for the over 65 age group
- It is anticipated that following the final delivery last week these uptake rates should increase

IP&C

- Currently across the whole health economy we are experiencing increased rates of Norovirus and Gastrointestinal outbreaks
- The below graph illustrates the current rates across the south west
- Wiltshire have so far had 17 outbreaks, 5 in education settings, 1 in hospital setting and 11 in care homes
- WCCG in collaboration with Wiltshire council, PHE and NHE held a workshop for care home staff aimed at the prevention and management of infectious outbreaks

STAY WELL THIS WINTER

'The right healthcare for you, with you, near you.'

Themed weeks which will see coordinated press, social media and website activity and tie in with PHE/NHSE comms grid and schedule for winter and flu.

Themed weeks would be led by an STP-wide press release and related activity.

Week commencing	Theme
8 October	NHS 111
22 October	SWTW - flu
12 November	Self-care week
3 December	GP Extended hours
24 December	Stay well at Christmas, where to get help over holidays
2 January	Focus on post-Christmas reactive comms
21 January	Cancelled appointments, winter theme
11 February	NHS Pharmacy

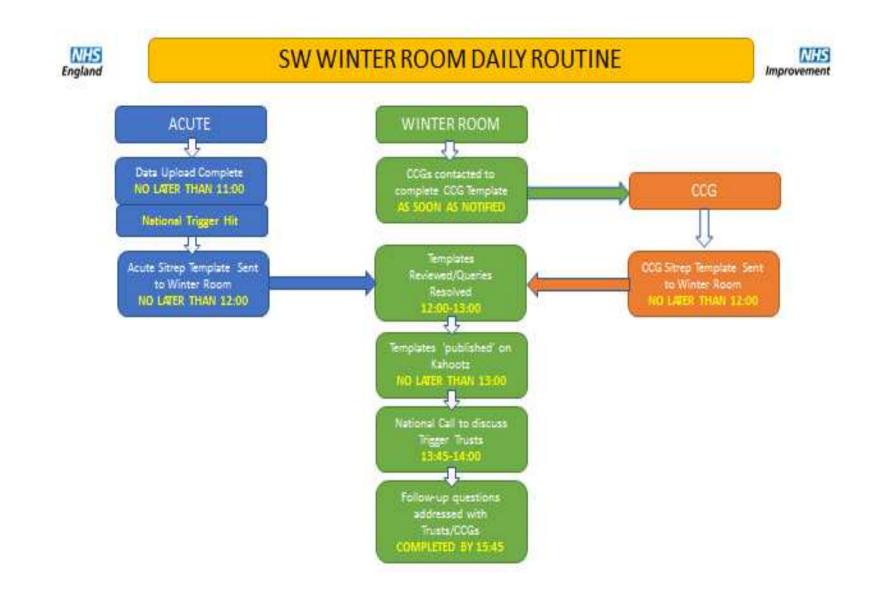

'The right healthcare for you, with you, near you.'

RISKS

- Current levels of demand and performance
- Workforce availability and sickness
- System collation of risks from plans and presentations
- Demand and capacity modelling outputs
- Assurance on sufficient domiciliary capacity
- Key areas of anticipated unprecedented demand
- Learning from ECIST review
- Risks from discussion at LDB
- NHSE winter operating model daily reporting 27th November (threshold for SFT <85%) and from 3rd December = 7 days
