| The Area Board has encouraged the creation of parish and town plans in the community area as a means of identifying community priorities. The process of preparing a plan will be community led by a representative steering group of volunteers. They will engage widely with local residents, community groups, businesses and other stakeholders and undertake a consulation exercise to find out what is valued and needed in the future. Information from the consultation will inform the action planning that will be developed with the involvement of agencies and service providers to ensure that the actions identified are deliverable. The parish/town plan provides evidence to inform future decisions affecting the community, helps manage change, involves local people in identifying community led solutions to local concerns and improves community spirit by helping indentify valued features of community life to be preserved. The plan should assist the work programme of the Town Council by providing evidence of community aspirations that can be used for future influencing and to assist with spending priorities for the precept. | | | | | | |

The Town Council will maintain close links with the steering group by providing a Town Councillor to be part of the steering group and also will ensure that regular reports of progress are made to the Parish Council. The Town Council does not however see the Steering Group as being unneccessarily bureaucratic and will use its best | | | | | | |
