

Wiltshire Highways Capital Programme 2019/20

April 2019

Introduction

Wiltshire Council manages over 3000 miles of road and about 1,000 bridges and structures. This infrastructure is vital to local residents and businesses, and it is important that it is kept in safe condition.

Wiltshire Council has a programme of works to maintain, renew and improve its highway infrastructure. This document sets out the main proposals for 2019/20 in connection with Integrated Transport Schemes, Structures and Highway Major Maintenance.

A programme of proposed work has been developed taking into account asset conditions, safety considerations and local priorities. The proposals will be reviewed during the year and may need to be amended in view of changing circumstances.
