<b>Project Description:</b> The new playground will be constructed of high-quality materials in keeping with the surroundings and will include a double wooden tower pirate ship with bridge, slide, fireman's pole and den. A large woodland climber, a bouldering wall, an area with a mixed level activity trail, including parallel bars, monkey bars, balance bar, balance weaver and swinging logs. There will be a variety of accessible high points and raised platforms maximising space and adding an element of adventure for all children			

inclusive of their different physical needs. This will encourage social inclusion. turn-taking and improve health outcomes of the children by supporting their physical development. In particular, improving upper body strength and assisting the development of gross motor skills. We are proposing to install a modest scheme cost wise that is high quality exciting and challenging. We obtained 3 quotes from API -Association of Play Industry- accredited companies with our preferred supplier offering a guarantee of 05-15 years. 5 years for surfacing and 10-15 years for timber and materials. The Friends of Marlborough St Marys have been incredibly supportive of this project and recognise that it is of high priority for the school and have been fund raising hard with the aim that we can start work on installing the scheme in Spring-Summer 2019. If we receive funds from the Area Board then it would be a fantastic boost in order for us to complete our goal as soon as possible.
