1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

- 1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
- 2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
- 3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
- 4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- 5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to
- 6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

- 1. The cover sheet provides essential information on the area for which the template is being completed, contacts and
- 2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template
- 3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.

We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the

- 1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments
- 2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
- 2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include 3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding 5. Income (click to go to sheet)

may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems)

- 1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
- 2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the
- 3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
- 4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2 The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.

On this sheet please enter the following information:

- 1. Scheme ID:
- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
- Scheme Name
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.
- 3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
- 4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- 5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant 6. Metric Impact
- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of 'High-Medium-Low-n/a' to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the 7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where 'Social Care' is selected and the source of funding is "CCG minimum" then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose 'Other' and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
- 8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select 'Joint'. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside. 9. Provider:
- Please select the 'Provider' commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:

- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the 11. Expenditure (£) 2019/20:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
- 12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing

- An assessment of your current level of implementation against each of the 8 elements of the model from a drop-
- Your planned level of implementation by the end March 2020 again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out further.

8. Metrics (click to go to sheet)

Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and actual performance on these metrics in 2018/19.

- 1. Non-Elective Admissions (NEA) metric planning:
- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not
- 2. Residential Admissions (RES) planning:
- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan
- 3. Reablement (REA) planning:
- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan
- 4. Delayed Transfers of Care (DToC) planning:
- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

- 1. For each Planning Requirement please select 'Yes' or 'No' to confirm whether the requirement is met for the BCF Plan.
- 2. Where the confirmation selected is 'No', please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

4. Strategic Narrative

Selected Health and Wellbeing Board:	Wiltshire

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i)

Link to B) (ii) Link to C)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care

Promoting choice and independence

Remaining Word Limit: 415

Our vision for Wiltshire is set out in the Joint Health and Wellbeing Strategy (JHWS):

"People in Wiltshire live in thriving communities that empower and enable them to live longer, fulfilling healthier lives."

Additionally, the specific approach to integration within the JHWS is as follows:

"Ensuring health and social care is personalised, joined up and delivered in the right place, at the right time and as close to home where possible."

To deliver this vision, the Health and Wellbeing Board strategy set out four core themes:

- Prevention Improving health and wellbeing by encouraging and supporting people to take responsibility for improving and maintaining their own health.
- Tackling Inequalities Addressing the wider determinants of health, the conditions in which people are born, grow, live, work and age, to improve health outcomes.
- Localisation Enabling communities to be stronger and more resilient and recognising that, across Wiltshire, different approaches will be required to deliver the best outcomes for all our population.
- Integration Ensuring health and social care is personalised, joined up and delivered at the right time and place, and as close to home as is possible.

Delivery of the JHWS requires increased integration and cooperation between public health, primary care, secondary care and other teams through multi-disciplinary teams to support the delivery of truly personalised care. This affects how services are jointly commissioned at a countywide level and developing joint working on enablers, such as workforce and digital.

The local health and care system remains under pressure and can be confusing for patients, families and carers. As our populations get older and more people develop long-term health conditions, our system is under greater pressure to cope with the changing needs and expectations of the people it serves. This is leads to higher demand for social care and increasing pressure on carers and community health services.

The Wiltshire Integration Programme

Programme (WIP), which is innovative and flexible in its approach.

Wiltshire's health and social care system leaders have placed leadership and culture change at the heart of their programme of transformation. Governance arrangements have been refreshed and there is significant alignment of drive and commitment.

A strong culture of joint working and governance developed through the BCF (and, more recently, the Improved Better Care Fund and Winter Pressure Grant) provides a platform to further build on successful change projects and initiatives already delivered. This has led to the Wiltshire Integration

The recently formed Wiltshire Commissioning Group (WCG) and Wiltshire Delivery Group (WDG) provide an open space for commissioners to define the "what" and for providers to develop the "how". With the WIB providing the chief executive forum across the whole system.

B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):

- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

^^ Link back to top

Since its first iteration, the BCP has provided a strong framework for integration, transformation and system wide delivery across Wiltshire. In 2019/20, the BCP continues to play a significant role in managing pressure across the system, monitored by newly refreshed, system-wide governance processes. It will help to deliver the vision for health and social care in Wiltshire through a commitment to enhancing a sustainable system that promotes health and wellbeing.

This work is supported by all system partners and emphasises prevention, self-management and signposting, including working with the voluntary sector to improve levels of prevention and independence with schemes such as the Local Areas Co-ordination (LAC) Pilot. This will be complemented by investment in community-focused provision, development of locality-based, integrated teams, supporting primary care, and continued joint commissioning of an integrated urgent care service and Home First Plus to avoid admissions, reduce LoS and support discharge.

This will create a more closely-aligned service delivery infrastructure supported in part by the BCF and IBCF and Winter Pressure Grant. As part of the aim to develop community resilience and market capacity, ensuring people are discharged from hospital in a safe and timely manner, the focus of the additional, non-recurring, resources will be on the continued wider transformation of adult social care (including front door services) to support the NHS.

We will continue to develop Home First Plus as part of the integrated discharge pathway, along with continued efforts to increase capacity in the domiciliary care market through our new Alliance framework. Our new model for health and social care is now moving into the mobilisation phase with important schemes planned for Integrated Rapid Response at Crisis, trusted assessment, and linked initiatives around the Cathedral programme, which includes the Red Bag scheme.

These are important steps for delivering tangible change in line with the JHWS, so people can say their care is planned with people who work together to understand them in control, and co-ordinate and deliver services to achieve best outcomes for them.

The BCP supports Carer Support Wiltshire, which undertakes carer reviews, provides respite care and provides voluntary emergency care that enables early identification of a carer to provide alternative support in an emergency.

While the system aims to help people live independently in their own homes for as long as possible, some people need to live in residential or nursing home environments. We have invested in training and wider support to care homes to ensure those in care homes receive appropriate care. There are around 200 nursing and residential care homes in Wiltshire with around 5,000 beds. A challenge faced in planning for this sector is that it contains a high number of self-funders who may revert to local authority support or to Continuing Healthcare (CHC) when their resource expires. These are expensive placements and people are usually very reluctant to move.

Commissioning priorities in 2019 include the implementation of a new commissioning structure being implemented in Q3 within the Council as a precursor to improved joint commissioning with the CCG. The restructuring of commissioning structures within the CCG depends on continuing discussions on the shape and nature of commissioning structures within the new BSW STP.

There is nevertheless, a continuing emphasis on joint commissioning that already takes place in respect of:

- Carers Services.
- Voluntary sector services to support prevention.
- Home Care (Help to Live at Home Alliance), including live-in care.

(ii) Your approach to integration with wider services (e.g. Housing), this should include:

- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

^^ Link back to top

We know that high levels of social isolation can lead to admission to hospital and greater levels of care. Levels of social isolation, as measured by the annual client and biannual carers' survey, are higher than we would like to see within Wiltshire. The Wiltshire Older People's Collaborative reviewed the impact of social isolation and identified areas at high risk of social isolation. This led to the development of the LAC pilot to support the signposting of people to local community assets which can help reduce the levels of social isolation across the county.

Local dementia diagnosis rates are around 66%, very close to the national target level of 67% with some outstanding individual GP practice performance. However, the impact of dementia on long term care needs for families and care home capacity is continuing to rise. The BCP work on training care home employees seeks to ensure residents remain in the home rather than be transferred to hospital. A dementia strategy and action plan has been developed, although gaps in care and need must be targeted to ensure a more community-focused /crisis intervention-based model of care. Through the BCP, we are already looking at:

- Care Home Liaison services.
- Focused support to AWP in relation to discharge planning.
- Acute in-reach programmes for dementia.

End of Life Care has been a principal area of focus for the CCG and the Council. The Wiltshire End of Life Strategy for Adults was first published in 2014 and significant progress has been made through working collaboratively with providers to develop a range of care and support services. The BCF supports end-of-life services, including the Urgent Care at Home service, step up beds in the community and the 72-hours end-of-life care pathway. In 2019/20, we will continue to develop our existing and new services to deliver personalised and well-co-ordinated care, which empowers patients to make informed choices about their needs.

The Disabled Facilities Grant (DFG) is managed as a component of the BCF, ensuring a whole system approach to prevention and reablement. DFG supports people to live at or as close to home as possible and is a key enabler to increase the number of people living in their own homes, avoiding longer residential or other support costs. The Council has topped up the Government allocation every year for the last seven years, as part of this commitment and strategy. Allocation of funding from the DFG is based on need, which varies month to month depending on the case load and professional assessment of need.

The budget spends, and potential spend is monitored closely and reported to the Council Cabinet through the BCF plan monitoring. Any over commitment is subject to budget monitoring and decision making based again on need.

This year's BCP aims to see closer working between housing, health and care commissioners to evaluate the impact of DFGs and to strengthen the links between DFGs, Community Equipment services and Assistive Technology.

C) System level alignment, for example to	his may include (but is not limited to):		
- How the BCF plan and other plans align	to the wider integration landscape, such as STP,	/ICS plans	
- A brief description of joint governance a	arrangements for the BCF plan		^^ Link back to to
Remaining Word Limit:	726		•

The BSW STP has been in operation since 2016. System partners are currently working together to produce the BSW response to the Long-Term Plan for the NHS. A key component of this is to develop sustainable health and care services that are able to meet the demands of a growing and ageing population, many who have with multiple long term conditions and complex needs. Like many systems we are also experiencing significant challenges with the recruitment and retention of a range of workforce roles across health and social care.

The Wiltshire BCP carries forward elements of the BSW STP, which has established the following five key priorities:

- Improving the health and wellbeing of our population
- Developing sustainable communities
- Sustainable Secondary Care services
- Transforming care across BSW
- Creating strong Clinical Networks

Prevention, locality-based integrated teams and a focus on workforce and capacity issues, such as the domiciliary care workforce and care home capacity, are strong themes running through the BCP as well. The BCP also complements the STP's key priorities for Urgent and Emergency Care, particularly the national priority on hospital to home services.

System leaders have placed leadership and culture change at the heart of their programme of transformation. Governance arrangements have been refreshed and there is significant alignment of drive and commitment, which has led to the establishment of the Wiltshire Integration Programme (WIP), which provides the Chief Executive Forum across the system.

The Council, the CCG and our partners in the acute, community and mental health sectors continue to work together to the following objectives:

- To shift the focus from acute to primary and community care and, in turn, to prevention and population health management.
- To share the risks and rewards of investment locally, moving over time to commissioning based on whole population health outcomes rather than a system which rewards increased contact.
- To have a shared and transparent governance structure.
- To establish joint outcomes and evidence-based provision.
- To provide a multi-skilled and joined up workforce.

Significant progress has been made in developing joint working and, building on this, the Council, the CCG and their partners, have made the commitment to further enhance their collaboration to create a sustainable health and social care system that promotes health and wellbeing and sets high service standards to achieve good outcomes for the local population.

Scheme Type	Description	Sub Type
Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of	Telecare
	independence and more efficient and effective delivery of care. (eg. Telecare, Wellness	Wellness Services
	services, Digital participation services).	Digital Participation Services
		Community Based Equipment
		Other
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	Deprivation of Liberty Safeguards (DoLS)
		Other
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis.	Carer Advice and Support
	Advice, advocacy, information, assessment, emotional and physical support, training,	Respite Services
	access to services to support wellbeing and improve independence. This also includes	Other
	the implementation of the Care Act as a sub-type.	
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector	
	practitioners delivering collaborative services in the community typically at a	
	neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property;	Adaptations
	supporting people to stay independent in their own homes.	Other

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 1. Early Discharge Planning Chg 2. Systems to Monitor Patient Flow Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams Chg 4. Home First / Discharge to Access Chg 5. Seven-Day Services Chg 6. Trusted Assessors Chg 7. Focus on Choice Chg 8. Enhancing Health in Care Homes Other - 'Red Bag' scheme Other approaches
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support	Care Coordination
Integrated Care Flamming and Ivavigation		Single Point of Access
	1	1 ~
	navigating through the complex health and social care systems (across primary care,	Care Planning, Assessment and Review
	community and voluntary services and social care) to overcome barriers in accessing the	Other
	most appropriate care and support. Multi-agency teams typically provide these services	
	which can be online or face to face care navigators for frail elderly, or dementia	
	navigators etc. This includes approaches like Single Point of Access (SPoA) and linking	
	people to community assets.	
	Integrated care planning constitutes a co-ordinated, person centred and proactive case	
	management approach to conduct joint assessments of care needs and develop	
	integrated care plans typically carried out by professionals as part of a multi-disciplinary,	
	multi-agency teams.	
	Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges,	
	please select HICM as scheme type and the relevant sub-type. Where the planned unit of	
	care delivery and funding is in the form of Integrated care packages and needs to be	
	expressed in such a manner, please select the appropriate sub-type alongside.	
Intermediate Care Services	Short-term intervention to preserve the independence of people who might otherwise	Bed Based - Step Up/Down
	face unnecessarily prolonged hospital stays or avoidable admission to hospital or	Rapid / Crisis Response
	residential care. The care is person-centred and often delivered by a combination of	Reablement/Rehabilitation Services
	professional groups. Four service models of intermediate care are: bed-based	Other
	intermediate care, crisis or rapid response (including falls), home-based intermediate	
	care, and reablement or rehabilitation. Home-based intermediate care is covered in	
	Scheme-A and the other three models are available on the sub-types.	
	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	Personal Health Budgets Integrated Personalised Commissioning Direct Payments Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	Social Prescribing Risk Stratification Choice Policy Other
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	Supported Living Learning Disability Extra Care Care Home Nursing Home Other
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.

7. High Impact Change Model

Selected Health and Wellbeing Board:

Wiltshire

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including:

- Current performance issues to be addressed
- The changes that you are looking to embed further including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan
- Anticipated improvements from this work

Working with NHSE and regional colleagues, we are aware that the next significant change in DToC performance through the High Impact Model should be to go further with our implementation of trusted assessment, Red Bag scheme and to work on our choice policy, which, when taken together, will further improve and built on our whole system performance.

In preparation for the 2019/20 plan, a complete review of the BCP schemes funded by the BCF in 2017/19 was undertaken in Q4 of 2018/19. This did not include any schemes funded by the IBCF and the Winter Pressures Grant. The schemes were reviewed in line with the following evaluation cycle to determine if individual schemes were delivering the desired outcomes to be able to attract continuation of BCF funding.

- Step 1: Demonstrate links between the scheme and national priorities and high-impact actions.
- Step 2: Show the desired outcomes of the schemes.
- Step 3: Describe the impact of the schemes.
- Step 4: Show the impact if the scheme were stopped.
- Step 5: Decide 19/20 BCF investment, including whether to continue funding the scheme through the BCF, through another funding stream, alter the scheme or stop it altogether.

Schemes were aligned to the High Impact Change Model (HICM) for delayed transfers of care to determine the relative value of the schemes in relation to DTOC and the results are set out in Table C, below.

8. Metrics

Selected Health and Wellbeing Board: Wiltshire

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
		NEL Admissions have increased steadily in the last three years for the Wiltshire
Total number of	Collection of the NEA metric	population and, although growth slowed in 2018/19, it remains 6% above the planned
specific acute	plans via this template is not	activity. Over £8.11m (19.8%) of BCF funding was allocated to schemes with a
non-elective	required as the BCF NEA metric	primary focus of decreasing NEL. Wiltshire has dropped from a rank of 8th in
spells per	plans are based on the NEA CCG	2017/18 to 9th in 2018/19 but remains a high performer nationally. The conditions
100,000	Operating plans submitted via	and types of admissions with a short LOS will be reviewed as part of the Rapid
population	SDCS.	Response at Crisis Project in 2019/20 to identify a community solution (including
		ambulatory care) and the impact of current schemes to support a reduction in NEL

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM) in the first instance or write in to the support inbox:

ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

	19/20 Plan	Overview Narrative	
		In 2018-19, DToC reduced by 23% (5,771 days) compared to 2017/18 but it remains	Please set ou
		above the trajectory of 14,400. 33% of all DToCs are a result of domiciliary care and	reducing Dela
		another 33% are due to residential and nursing home delays, which accounts for 66%	set for your a
Deleved Transfers of Care was day		of total delays. The percentage of delayed days associated with domiciliary care and	how the sche
Delayed Transfers of Care per day	41.2	non-acute transfer have increased compared to 2017/18.	Social Care In
(daily delays) from hospital (aged			metric. Includ
18+)		Choice have reduced. Nearly £21m of BCF was allocated to schemes with the primary	Winter Pressi
		focus of decreasing LoS and DTOCs in acute hospitals.	and care syst
			NHS, with pa
		The following schemes have been funded through the BCF to support the reduction in	pressures.

Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole. Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by	Annual Rate	472		There was strong performance in 2018/19 for this indicator with a rate of 354 admissions per 100,000 of
admission to residential and nursing care homes, per 100,000	Numerator	500		population to care homes. This is well below the national average of 586, although waits for residential
population	Denominator	105,837		and nursing home placements are a major contributor to DTOCs (33%).

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments	F
Drawartian of older manufa (CF and	Appual (9/)			This indicator demonstrates the effectiveness of	li
Proportion of older people (65 and	Affilial (%)	86.7%	90.0%	reablement services to improve an individual's	ŀ
over) who were still at home 91				independence. Throughout 2017/18 and 2018/19,	r
,	Numerator	650	675	Wiltshire has seen a deterioration in this indicator, which	ŀ
into reablement / rehabilitation				follows a change in coding practice around 'consent' and	S
services	Denominator	750	750	this is under review. £4.87m (11.9%) of BCF is invested	r

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board: Wiltshire

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
	PR1	A jointly developed and agreed plan that all parties sign up to	Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted? Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes			
NC1: Jointly agreed plan	PR2	A clear narrative for the integration of health and social care	 Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? A description of how the local BCF plan and other integration plans e.g. STP/ICSs align? Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that 	Yes			
	PR3	A strategic, joined up plan for DFG spending	Is there confirmation that use of DFG has been agreed with housing authorities? Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes			
NC2: Social Care Maintenance	PR4	A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes			
NC3: NHS commissioned Out of Hospital Services	PR5	Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (autovalidated on the planning template)?	Yes			
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	Is there a plan for implementing the High Impact Change Model for managing transfers of care?	Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care? Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes			

Agreed expenditure plan for all elements of the BCF	PR7	pool that are earmarked for a purpose are being planned to be used for that purpose?	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? Has funding for the following from the CCG contribution been identified for the area? - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement?	Yes	
	PR8	Indication of outputs for specified scheme types	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes	
Metrics	PR9	Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? Have stretching metrics been agreed locally for: - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes
