TROWBRIDGE COMMUNITY AREA FUTURE PARTNERSHIP Annual Work plan 2011/2012	
"To establish and maintain a	Board meetings are still being treated as Joint Board and Partnership meetings but work needs to be
Partnership, Steering Group &	done to bring more Partnership members into the Board meetings with the ability for them to
Thematic Group, as necessary"	take part in a meaningful way. Most members of our Steering Group attend Area Board meetings.
	The Steering Group is elected at the Annual General Meeting of the Partnership in May/June.
	We presently have two Project Officers paid 11.5 hours each per week who are employed by TCAF
	with the payroll function being carried out by Trowbridge Town Council.
	Our Partnership is affiliated to WfCAP and representatives attend and participate in its events.
	We set up an Environment Theme Group last year, LEAF, Local Environment Awareness Forum but
	not a Housing Theme Group. However we are discussing with the Housing Department a practical way
	forward. The Steering Group, the Theme Groups, and the Parish Council Liaison Group mainly meet
	quarterly, the Trowbridge Neighbourhoods Partnership meets every 2 months and BA14 monthly.
	A list of all meetings' dates so far arranged is attached.
Accountability.	We will continue to meet with a wide range of groups to ensure that the issues that we have
"To be open to and inclusive of	identified and included in the new Community Area Plan are still current. Where new issues arise
the wider community and to	that local people consider to be priority issues we will, working with our partners, endeavor to
account and seek affirmation	have them addressed and we will amend our looseleaf and website versions of our Community Plan.
from the wider community for	Where appropriate we will develop our own projects and seek external and where appropriate
its actions, activities and	Area Board funding for them. We will be working closely with our partners to monitor progress
forward plans on an annual basis."	with the actions included in the Community Area Plan. The new Plan is set out a little differently
	from our original Plan. 1.) A short introduction to ecah Theme. 2.)Issues and what the Partners are
	doing now to address these Issues. 3.) What's next.
	We hold Theme and Other Group meetings and we will publicise these meetings through all our
	databases and via the Town Council and other databases. We will place notices on Town Council and
	other noticeboards. Our timetable of meetings will be on our website.
	We will publish this plan, in loose leaf form, and make it available widely. We will produce a less
	detailed version similar to our Snapshot publication Issues, Actions and Progress. We will encourage
	local people to make their comments on the Plan. It will contiue to change and the loose-leaf &
	website formats can easily deal with such changes ensuring that the Plan remains a living document.
Communication	We will take the new Plan out to the public if possible getting the use of one of the empty town
"To engage and communicate	centre shops and/or setting up stands in Castle Place and the Shires Shopping Centres to engage
systematically with all sections of	directly with them. We need to attract more volunteers to help positively in the improvement of
the community and to maintain a	the Community Area and particularly Trowbridge. We will seek the opportunity to present to local
contacts register of key organis-	pupils in their schools how we are trying to improve their Town and Community Area and they have
ations and volunteers"	a positive part to play. We will go to groups and clubs to seek their support particularly those who

	are retired. The concept of the New Society is positive and we need more people to be involved.
	We produce Newsletters for our BA14 Website but we will extend this to our new website to
	cover all aspects of our work and that of our partners.
Consultation.	As stated above we do need to get out more to meet and involve more people. We need to convince
"To consult widely on a range of	them that they can make a difference by working with us. People remain interested as long as there
community issues and hold public	is something positive coming from what they are doing. We need to encourage more people to take
engagement events and activities."	active part in some of our voluntary groups many of which are finding it difficult to attract volunteers
Community Planning	We are close to completing a new community area plan 2011 - 2016. We have been working closely
"To prepare and regularly review	with our major partners to ascertain and include in the plan what they are planning to do to tackle
a community plan that takes into	the local issues which we have identified. The main partners involved in this process have been
