3826	Chippenham Town Council	Bath Road Car Park CCTV	£2500.00

Project Description:

Car Park belongs to Wiltshire Council. Joint partnership working with the Town Council. Anti-Social Behaviour in Bath Road Car Park is impacting upon the quality of lives of the residents in Fogsomshire which have private access to their properties via the public car park. The youths congregate under the canopy based next to the Public Toilets. Boy racers skid around causing tyre marks in the car park. Their presence is intimidating noisy and unpleasant for local people. The residents regularly call the police but by the time police arrive they flee the area or stop their activities. A CCTV camera solution is proposed that would give live time imagery back to the main CCTV Control Room and also remote access to the police in Monkton Park. Response times and detailed evidence would be improved. The Town Council have recently invested 20000 plus on the latest wireless CCTV technology in the town centre and this camera solution would feed straight into the existing system. Bath Road Car Park is owned by Wiltshire Council and the Bath Road Toilets are leased to the Town Council so this is a joint funded community project for the benefit of local residents and visitors alike. It will also assist in regenerating the Night Time Economy following Covid 19 and be a positive addition to the next Purple Flag submission for the towns reaccreditation in 2021.

3791	Malmesbury Tennis Club	Malmesbury Tennis club car park repairs	£2662.00
Project Description: We have levelled the existing car park to remove large pot holes and have dug in extra land drains laid hardcore resurfaced the area with gravel and laid new gravel paths from the car park to the courts. We have also replaced the adjacent boundary fence which was installed in the 1920s and has not been repaired since. The car park has suffered particularly from flooding resulting from heavy rainfall recently which meant that it was not possible to reach the courts without getting wet feet no matter what the means of transport. There has been a historic issue with excess water not being able to drain away which has been particularly bad since work was carried out on neighbouring land resulting in a change of levels the car park is now below the level of the adjacent land which meant that excess water sat on the surface in puddles and was not able to drain away. The printed map also enables those who won't use the app to get involved equally. We also want to put a small amount of the grant into an online promotion to reach more people around the city. I have personally done all the trail art work again (over 60 hours of work) to offset the over-all sum.
