1	The Amber Foundation  Ambers Counselling Support  <a href="#">View online application here</a>	Youth funding  Support project – award 50% of funding requested.  Reason for a 50% offer is that the project doesn't solely focus on the needs of Trowbridge although it is understood that somewhere between 50% and 60% of the service users are or have been Trowbridge residents. The applicant provided figures and stats to confirm the above point and was encouraged to apply to other Area Boards and/or other funding streams such as Wiltshire Community Foundation. The applicant was able to confirm that if the grant wasn't awarded in full the project could still continue.	<b>2. Part Support – award £2180</b>

## Trowbridge Area Board – Funding Request Feedback Form

### Public feedback received:

1. David Cavill FRSA - Just a note to say that the Amber Foundation is an exceptional organisation which Wiltshire Council should be proud to support - not just because of its excellent record but because its success saves the County cash in care and support costs and enables many young people become productive members of society rather than a drag upon it.
