		OBJECTION	
1.	Resident of Yarmley Lane	We object to this proposal because it will reduce parking capacity on this stretch of road and encourage parents to obstruct the Yarmley Lane entrance. We agree the safety of the children is of great importance and suggest increasing the parking restriction to Yarmley Lane entrance.	<p>These proposals have been developed in conjunction with Winterslow Parish Council and the Headteacher of Winterslow Primary School. Restrictions have been kept to the minimum required in order to keep the school gates and crossing point clear and the children safe.</p> <p>The extent of the restrictions cannot be extended at this time without re-advertising the entire proposal.</p> <p>Increasing the restriction could potentially encourage non-compliance as drivers do not see the requirement for such an extensive restriction and therefore do not comply at all.</p>
