Local Priorities & Updates - Marlborough

Priority	Update
Storm(s)	The recent storms have required a significant response from Police and partners. Special mention goes out to our colleagues in the fire service, highways and the local authority for working closely with us to resolve some of the disruption caused. Across the county we logged over 620 incidents in relation to Storm Eunice alone, causing police services to be stretched significantly. We are aware that some of the public felt that a better service was needed in some areas but hope that the scale of the issue faced by all of the public services can be acknowledged and appreciated by those that feel we could have done better. Teams pulled some extremely long shifts in dangerous conditions to bring the town back to some sense of normality as soon as possible.
Speedwatch	Wiltshire police have developed an internal system that allows the collection of community speedwatch data from all of our teams across the county. The system allows local teams to focus on specific areas and drill down into the detail, allowing us to support the most problematic areas at key times, increasing our effectiveness in this important area of the business. Across the Marlborough area an average of 9.5% of vehicles are speeding (within the CSW area) so it is vitally important to focus on the crucial areas at crucial times to make the biggest impact – for example this 9.5% average rises up to 26.5% at key times and key areas.
