* Please note that a total of £7,085.41 was recommended towards the Area Board initiative by the Area Board. However, the decision to award a figure in excess of £5,000 has been found not to meet our governance standards, so a figure of £5,000 has been approved. Given the proximity to the end of the financial year it has been decided to approve the grants as listed rather than refer them back to the Area Board.
