<p>The project will involve local people in delivering solutions to community identified priorities through enhancing, developing and championing a run down area of the town to form a 'green vein' that will provide opportunities for more environment friendly/traffic free methods of accessing the town centre. The project will involve local people from diverse age ranges and backgrounds working together to enhance and care for their shared spaces, which will help to promote community cohesion, responsibility, pride and a celebration of diversity. This in turn may help to address community safety issues linked to anti-social behaviour, crime and the fear of crime.</p> <p>The geographical position of the project includes one of the most deprived wards in Wiltshire, according to the indices of deprivation. Alongside the people who live in this area the project also aims to draw in local people from other areas of the community. This will result in opportunities for people to work together and may help to break down social barriers.</p>			

Wiltshire Council will be unable to meet the ongoing costs of your project. Please describe, therefore, how you will ensure the financial sustainability of your project beyond the period of this grant (if successful)?

This project is reliant upon the provision of a temporary support worker who has skills in both community development and environmental management, to facilitate the development of the group and ensure its sustainability. Part of this brief will be to identify and draw down funds from other funding streams and to create a sustainable action plan.

The group will also engage in fundraising activities.

The Abberd Brook has been an issue for the Calne Area Board and is currently to subject of an Area Board working group.

Westlea Housing Assoc. has been investigating restoration work and consulting with local people for a number of years.

The Brook is also appearing as a significant emerging issue for CCAP as it reviews its community plan.

All Westlea residents and private residents in the locality will be specifically encouraged to become involved and are also the prime benefactors of the project. However the group will also promote the project beyond the area and hopes to draw down additional volunteers from further afield and the benefits will be felt more widely as more people begin to recognise the advantages of using this piece of community space in positive ways.
