# Appendix 2: Admin KPIs

# 1. tPR Data performance measures

Measure	Score	Change since last period
Common Data	98% (at 1 Nov 2022)	-1% since Nov 2021
Conditional (Scheme Specific) Data	96% (at 1 Nov 2022)	+1% since Nov 2021
Annual Benefit Statement production rate	<b>98.7%</b> (at 31 Aug 2022)	-0.8% from 2021
Pension Saving Statements	100%	No measure

## Performance commentary for the year

The **common and conditional scores** for this year have remained close to last year.

The Fund is already above average and some of the remaining gap to 100% is hard to fill due to factors outside of the Fund's control.

For the Common Data metric, virtually all the remaining data issues relate to missing postal addresses, where the member has failed to keep us up to date when they have changed address. Furthermore, as the Fund's main form of communication is now electronic, the member's postal address is becoming less important, and it is more difficult to identify if it is correct.

For the Scheme Specific measure, many of the errors are of a technical nature due to the way the metric is calculated but these require further review.

The **active Annual Benefit Statement** score (98.7%) for this year is slightly short of the target of 99%. Most of failures relate to Swindon Borough Council employees, due to their ongoing administrative difficulties following their change of payroll system early this year. Most of the remaining failures are resolved but officers are still liaising with Swindon Borough Council to clear the last remaining issues.

However, this score is still relatively high compared to 2018-2020, albeit lower than 2021.

2021: 99.5% 2020: 96.9% 2019: 95.0% 2018: 93.9%.

All **Pension Saving Statements** were sent on time despite a number of delays with receiving data from certain employers (in particular, Swindon Borough Council). All active members were analysed (c23,000) to see whether they exceeded the annual allowance limit and the final exercise resulted in 90 statutory statements being sent and 36 members being likely to need to pay a tax charge.

## Explanatory – background to the measures above.

The Pension Regulator (tPR) helps regulate each LGPS's Fund compliance with various legislation. It has various enforcement powers such as setting improvement plans and fining.

In respect of administrative performance, tPR focuses on two types of measures as explained separately below. The Fund is required to submit its scores against these measures each year as part of its Scheme Return.

tPR target is for all of these scores is 100% although there is an informal acceptance that scores are likely to often be slightly less.

#### a). Common and Conditional/Scheme Specific data scores

Common data scores test the Fund's data quality (existence and accuracy of data) against various data measures it expects all Pension Funds to hold (e.g., name, address etc). Conditional/Scheme Specific data scores are those data types which are needed for the administration of that specific scheme. For the LGPS, the Scheme Advisory Board (SAB) has determined the relevant data items.

Note: It was somewhat onerous and costly to do this analysis so at present the Fund only revisits these scores annually, normally in August-October, in order to complete its annual return to the tPR.

## b). Active Annual Benefit Statement (ABS) production

The Fund is required under the LGPS Regulations to produce active ABSs by the 31 August of each year (related to the member's pension as at 31 March of that same year). The Fund currently uploads all ABSs to the MSS member portal (My Wiltshire Pension). It only sends out paper statements to members who have opted in to receiving paper statements.

### c). Pension Saving Statements

The Fund is required to send pension saving statements (relating to annual allowance tax charges) to all affected members by the 6 October each year.

# 2. Internally set targets (Fund)

The Fund's internally set administration targets are set to help met the goals of the Fund's business plan. The Fund also must meet certain disclosure targets, but these will now only be monitored on an exceptions basis (i.e. if we are failing).

# a). Administration payment processing scores (higher priority administrative tasks)

The following table shows the Fund's process times against the timeframes set out in the administration strategy. It covers the high priority tasks, processing data on lower priority administrative tasks (such as deferrals and aggregations) will be shared at a later date. The tasks which are deemed as higher priority are the ones which relate to making a payment to the member (or a beneficiary).

Members are now able to instantly access benefits estimates and therefore there is no longer a disclosed target related to this.

	High priority	Medium priority	Total
In office tasks	89 (-50)	94 (-39)	183 (-89)

#### Notes:

Table 1 & 2: All high priority cases are maintained at "amber".

**Table 4:** This table acts as an 'early indicator' to show whether the processing teams (in the non-backlog areas) are sufficiently up to date with processing work. The goal is for the numbers to be zero, or close to zero, to ensure that work is picked up with sufficient time available to complete it with the target time.

Since monitoring of this metric began, the figures have typically remained between 200 and 250.

The leaver and aggregation scores are reliant on bringing case numbers down and therefore the existing KPI target scores are likely to worsen while older cases are cleared. With both Officers and Hymans working on aggregations we can see that this is starting to have an impact on the statistics.

# b). i-Connect onboarding progress (31 December 2022)

The following table shows the progress in onboarding employers on to i-Connect. I-Connect onboarding is currently on hold while we establish solid foundations for the checking and monitoring of receipt of employer data.

	Number onboarded	Number left to onboard	Completion rate
Active members	15260	8,240 (total = 23,880)	64.9%
Employers	142	48 (total = 190)	74.7%

<sup>\*</sup>Swindon Borough Council (SBC) and FS4S (a payroll provider), Wiltshire Police and New College (which collectively cover over 90% of remaining active membership not already onboarded). In all cases, their onboarding has been complicated by changes they have made to their payroll system.

## a). i-Connect submission performance

<u>Note</u>: Newly onboarded employers are not included with the performance statistics as typically more support is needed in the initial months and therefore the normal deadlines do not apply.

### **Timeliness measure of submissions**

All employers onboarded on to i-Connect are required to submit their return by the 19th of the month following the month the data relates to.
