979050	A338	SALI_24_0002	ST NICHOLAS / EXETER STREET ROUNDABOUT			UNDER REVIEW	190	ТВС

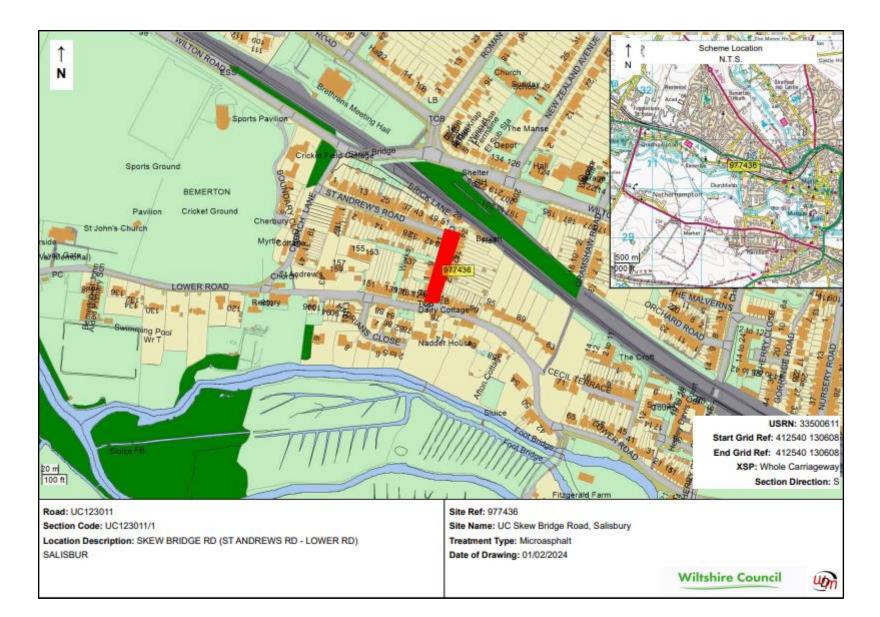

Site Plans for Proposed 2024/25 Schemes

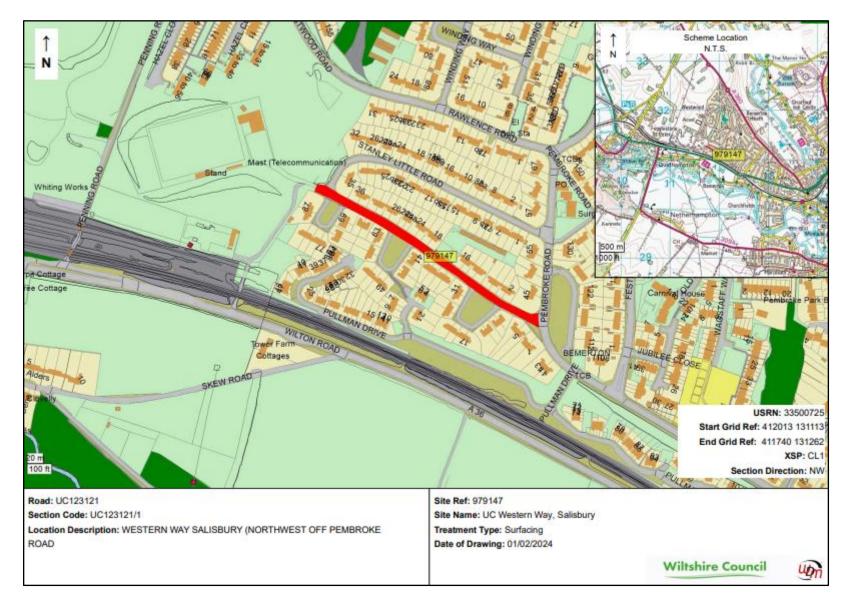

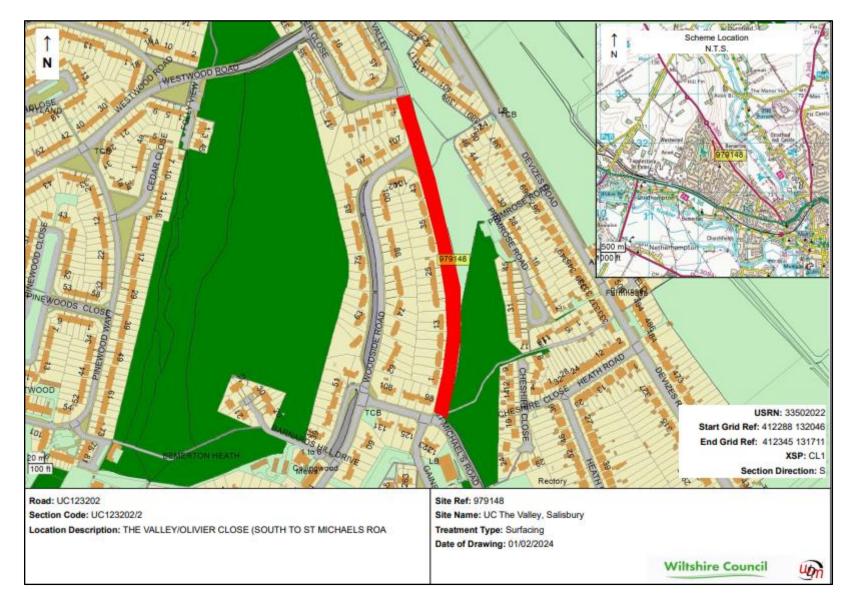

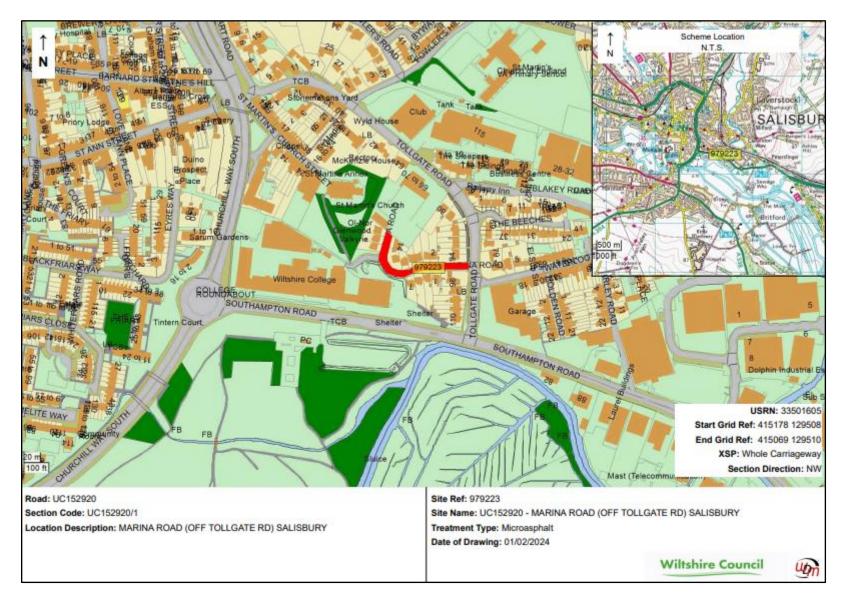

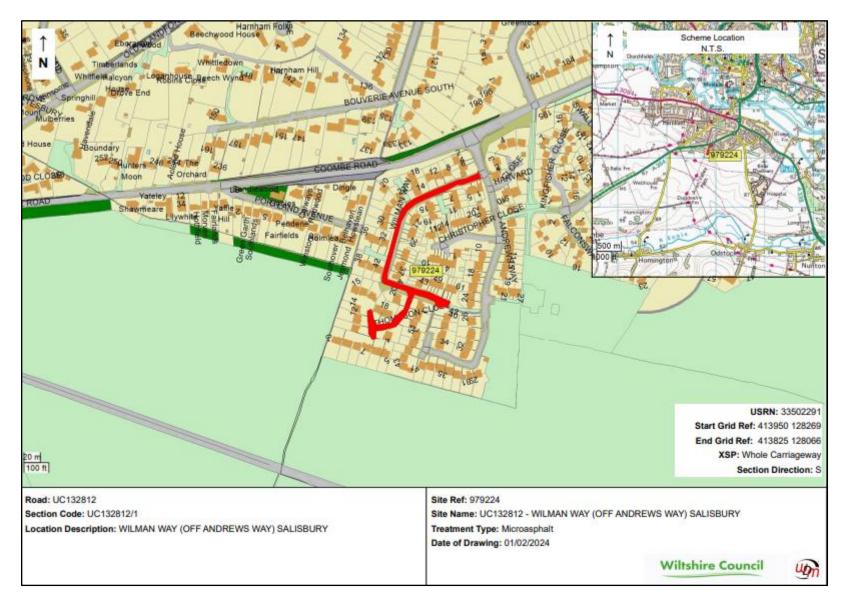

Increased Highway Investment

In addition to the planned major maintenance sites listed, additional works across Wiltshire will be undertaken using the additional investment in road maintenance provided by Wiltshire Council. This funding will be used in two ways:

- a) To target sites most prone to potholes through a package of road resurfacing and localised repairs. These areas will be identified through analysis of customer reports, pothole repairs and local knowledge of areas of concern from the Local Highways Area Engineers. Special consideration will be given to C road and Unclassified roads.
- b) To undertake preventative maintenance using surface treatments, thereby extending the life of the current surface by up to 7 years. These sites will be identified using condition data.

Work to identify sites is currently underway.
