The update included the following points:</p>

- Members were reminded that in the summer of 2022, Wiltshire Police had been placed into “Engage” by the independent auditor after it had not provided a satisfactory service. In May 2024, the force had been taken out of “Engage”, which demonstrated that it was making progress with investigations, protecting the vulnerable and responding to crime.
- Wiltshire Police had since had a further PEEL inspection on 15 August 2024, where significant improvements had been made over the ten graded categories, with no areas graded inadequate with all areas showing an increased improvement, particularly in the area of community engagement.
- Whilst some areas were recognised as improving, some were recognised as not being where they should be, therefore the Chief Constable aimed to continue improvements in these areas.
- It was outlined that regarding the Control Room, there was a statutory duty to respond to 999 calls within 10 seconds and that previously Wiltshire had been the worst performing force for this but had since improved to rise 8 places and answer more calls within 10 seconds.
- The impact of the re-establishment of dedicated Neighbourhood Teams was discussed.
- It was outlined that there had been a drive to increase the Police’s online presence.
- A press release from Wiltshire Police regarding the HMICFRS PEEL report publication can be found at this [link](#).
