FURTHER ENLARGEMENT SHOWING THE CLAIMED ROUTE AT THE SOUTHERN END OF MR KAVANAGH'S FIELD IN 2001

An important point to note from the above 2001 aerial photographs numbered 1-5 is that the claimed route is shown to be further out from the hedge in Mr Kavanagh's field. This is not inconsistent with the witness evidence.

As in the 2001 aerial photographs numbered 1-5, similarly the 2005 photographs numbered 6-12 indicate that the claimed route is shown to be further out from the hedge in Mr Kavanagh's field which is not inconsistent with the witness evidence.
