Caroline Wylie	Preferred option for the Wylie family is option one, this makes child care for the summer holidays more manageable.	1
Jane Verspeak	I would like to vote for option 1 - i.e. longer October half term.	1
Victoria Moore	I think Option 1 is best because a slightly longer half term break in October spreads out the holidays more evenly. It is probably more beneficial for the children because they have a little more time to recover after their first half a term in a new year group (or if they have just started school).	1
Karen Reeves	Our family favours Option 1 which allows us to go away for our annual break without the children missing school. A 5 day October break would prevent us from doing this. I don't understand where the advantage of Option 2 is as it only extends an already long summer break.	1
Eric Steele	Option 1 thank you.	1
