2. The project	
Project Title/Name	Atworth Village Gateway System
Please tell us about the project /activity you want to organise/deliver and why?	Atworth is a small settlement with a very busy "A" road running through its middle. The nature of the road limits the highways solutions with added speed limit signs or a change of speed limit not being viable at present. Adding a set of gateways at either end of the road and entrance to Atworth will help to clearly define the two ends of the settlement and in doing so advise drivers to slow down.
<i>Important: This section is limited to 600 characters only (inclusive of spaces).</i>	
Where is this project taking place?	Atworth
When will the project take place?	Within 3 months of funding
What evidence is there that this project/activity needs to take place/be funded by the area board?	A similar system fitted in a different settlement has significantly helped with a similar problem. Atworth is a gateway in itself to our Area and as such important to the general community.

How will the local community benefit?	Atworth has it's share of children and older folks, including Shell Court sheltered accommodation, all who need to be able to use this busy road safely, and as a Gateway to our area in its own right will benefit the wider community, not just asthetically but in increased road safety also.		
Does this project link to a current Community Issue? (if so, please give reference number as well as a brief description)			
Does this project link to the Community Plan or local priorities? (if so, please provide details)	yes. via CATG and A Board
