

A1

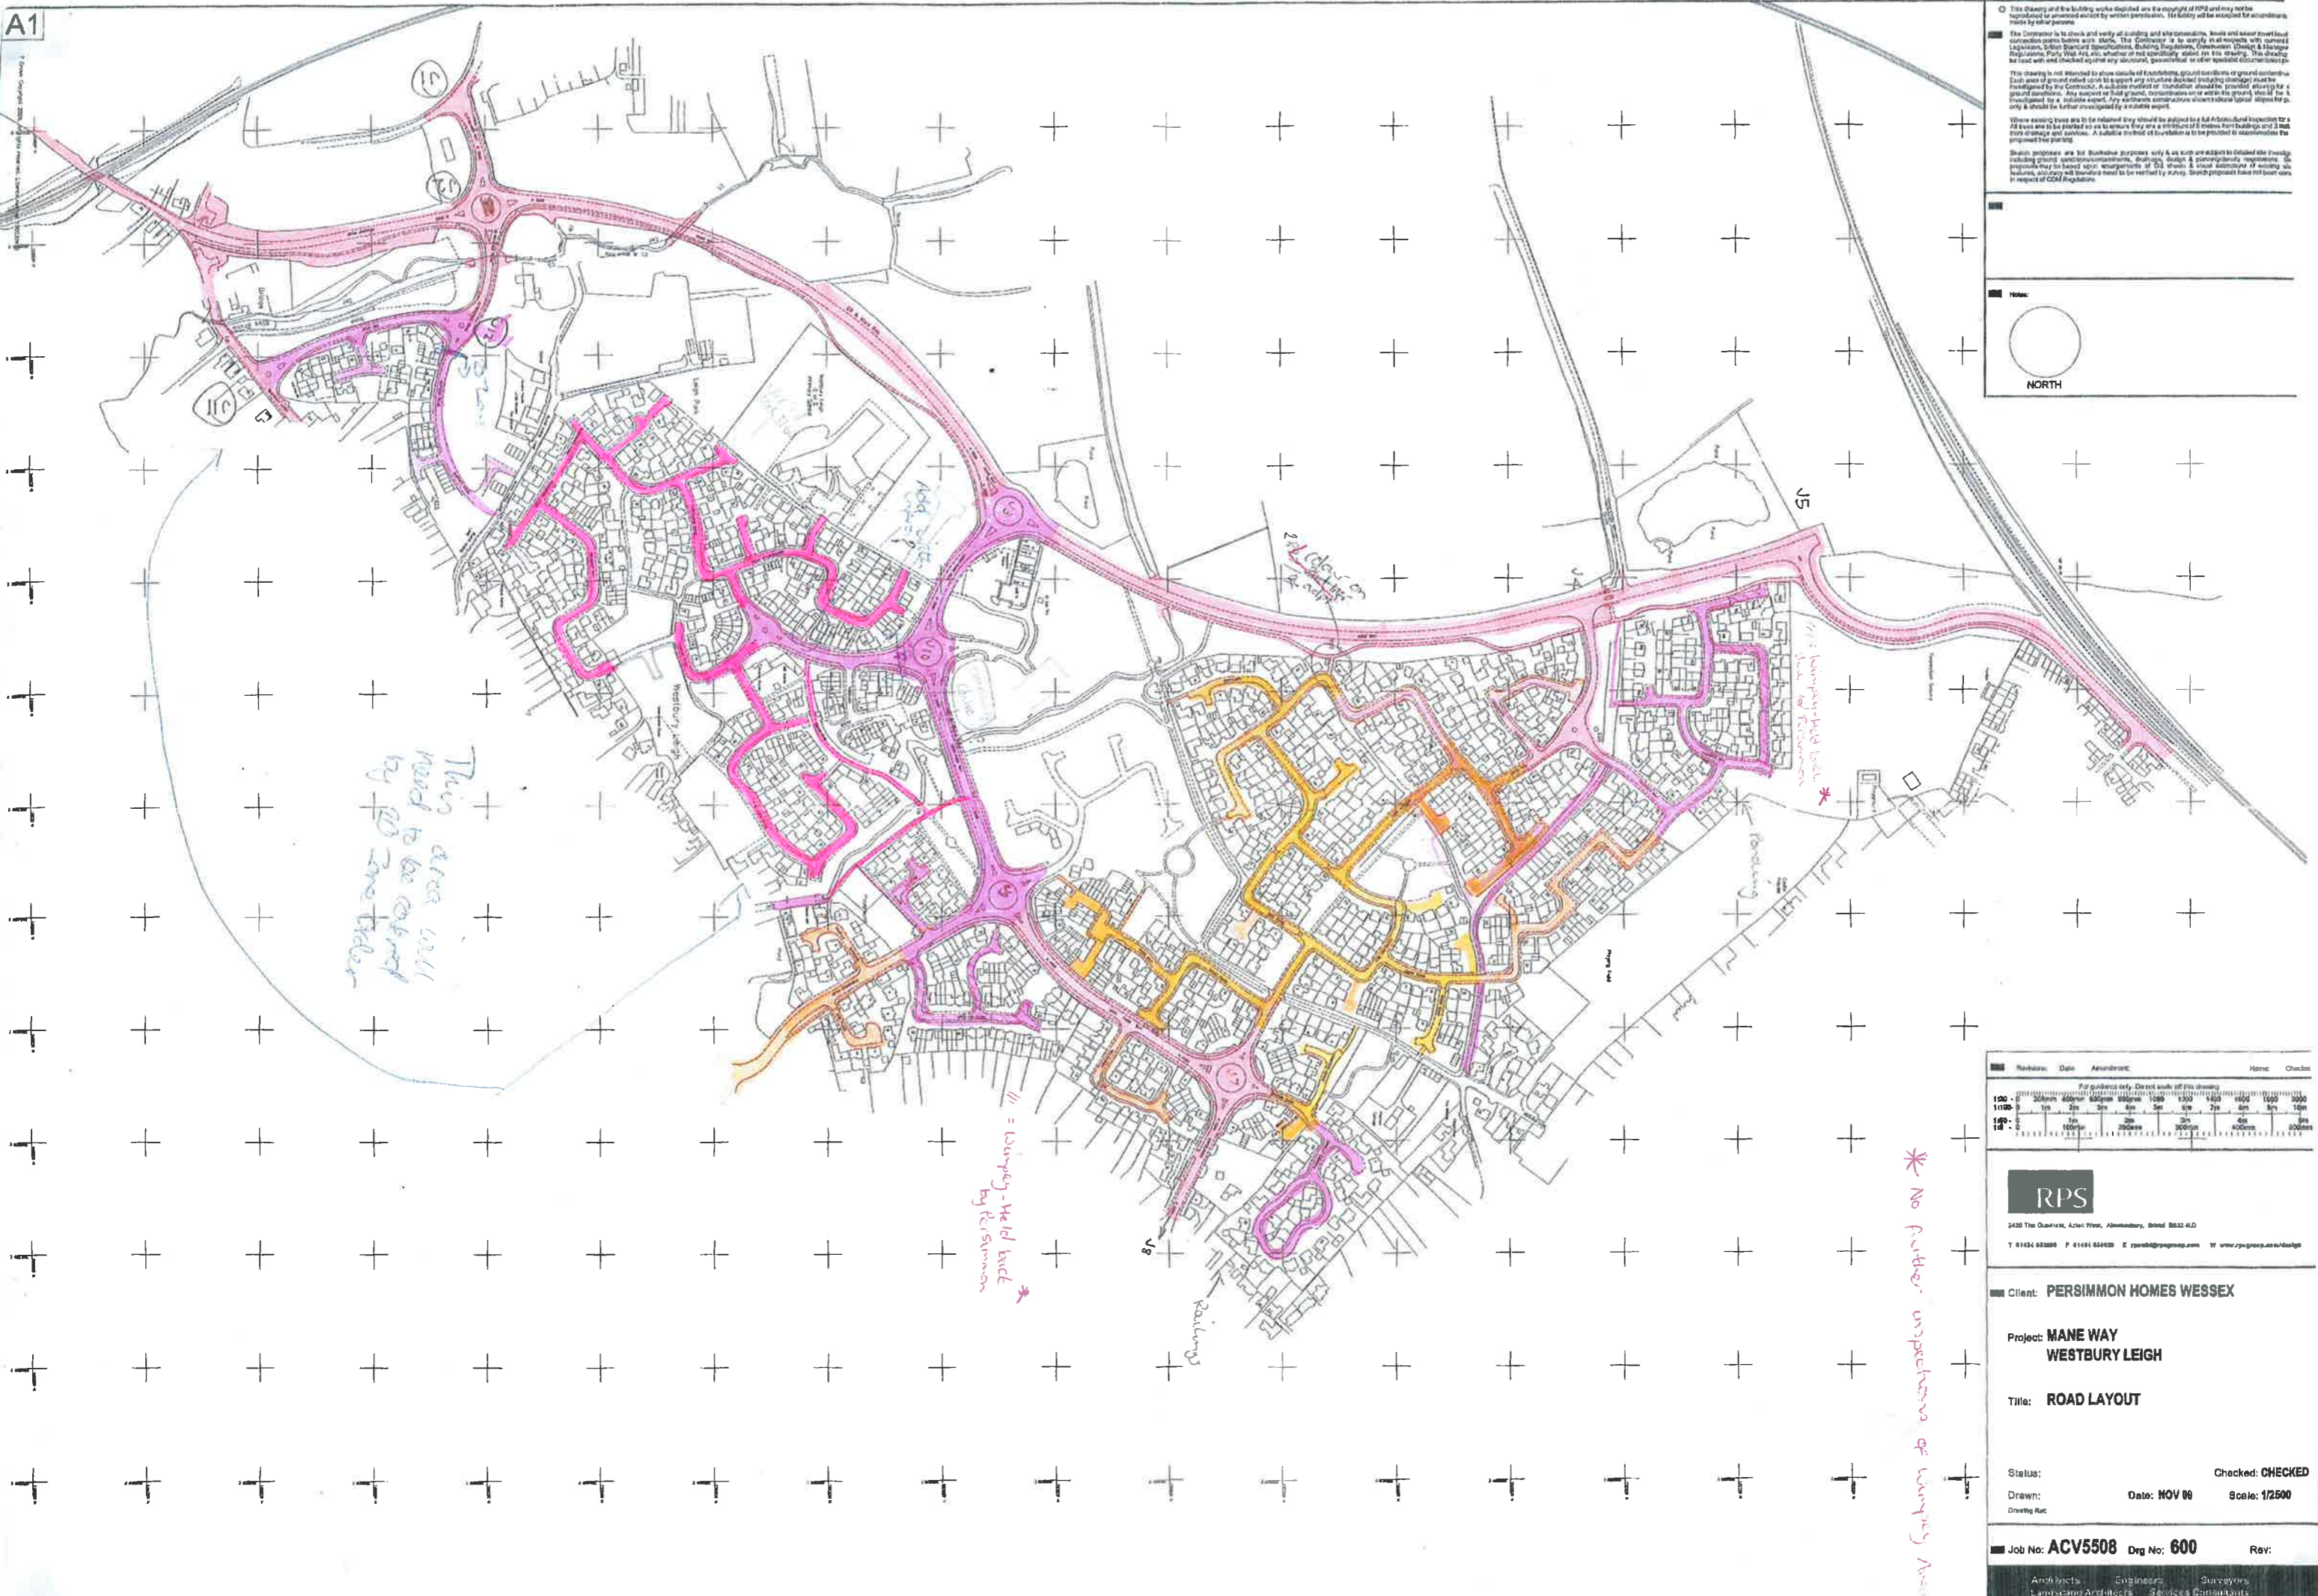

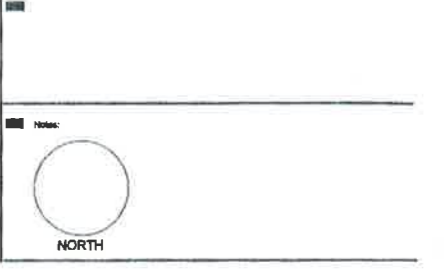

This drawing and the building works depicted are the copyright of RPS and may not be reproduced or amended without written permission. Its utility will be required for circumstances made by all of persons.

The Contractor is to check and verify all building and site information, levels and exact street level connections given before work starts. The Contractor is to verify all proposals with relevant Legislation, Urban Standard Specifications, Building Regulations, Construction (Design & Management) Regulations, Part W, Part A, etc. whether or not specifically stated on this drawing. This drawing has been checked and approved by RPS, and the Contractor is to ensure that it is followed in full.

This drawing is not intended to show details of foundations, ground conditions or ground conditions. Each area of ground related work to support any structure depicted including drainage must be investigated by the Contractor. A suitable method of investigation should be provided allowing for a ground investigation by a suitable expert. Any such details are to be provided to the Contractor by a suitable expert.

Where existing levels are to be retained they should be subject to a full structural inspection for a full area to be checked to ensure they are a suitable method of foundation as to be provided to the Contractor by a suitable expert.

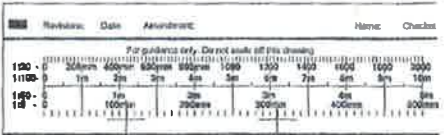

Structural proposals are for illustrative purposes only and as such are subject to detailed the design including ground conditions, drainage, design & geotechnical requirements. It is the responsibility of the Contractor to ensure that all structural proposals are checked by a suitable expert. A suitable method of investigation should be provided to the Contractor by a suitable expert. Any such details are to be provided to the Contractor by a suitable expert.

This area will need to be covered by 100mm concrete

/// = kerbing - to be laid by Persimmon

** No further implications of kerbing areas*
