

**Proposed changes to bus services 91 and 91B
in the Kington Langley, Seagry, Sutton Benger
Christian Malford, and Dauntsey Vale areas**

We want your views !

Wiltshire Council is reviewing the bus services it funds in the north west of the county with the aim of providing them in a more cost effective manner whilst continuing to meet local needs.

This leaflet shows proposed changes to bus services 91 and 91B in the Kington Langley, Seagry, Rodbourne, Sutton Benger, Christian Malford and Dauntsey Vale areas. To let us know your views, complete the questionnaire on the back page and return it to us at the address shown, by 7 October 2013.

Other services in the area are also being reviewed, and similar questionnaires are available on the buses operating the service in question. Details of all the proposed changes, and copies of the consultation documents and on-bus questionnaires for the other services, can be found on the Wiltshire Council website at www.wiltshire.gov.uk/consultations, or can be obtained from the address shown at the foot of the back page.

Bus Service 91 and 91B

Summary of the proposed changes

Bus services 91 and 91B are currently operated by the AD Rains bus company on behalf of Wiltshire Council, who fund the entire service. The service is designed to meet a variety of transport needs, including journeys to work, education and shopping in Chippenham. It also provides the opportunity for the residents of the Dauntsey Vale to access the shops and medical facilities in Malmesbury.

Although some journeys are reasonably well used, many journeys carry less than 10 passengers in total, with some journeys carrying even fewer. Use of the service to travel to/from Malmesbury is particularly disappointing, this extension having been introduced 5 years ago on an experimental basis.

The current timetable is also very expensive to provide because it requires the use of at least two buses. However, surveys suggest that the majority of the needs of our existing passengers could be met by altering the timetable so that it can be operated using fewer vehicles.

Wiltshire Council has produced a new timetable which we believe will enable the service to be provided in a more cost effective manner, whilst retaining links to the most popular destinations at times when they are most needed. This would involve the service reverting to its previous circular route in the Dauntsey area and would run to/from Chippenham approximately every 90 minutes using just one bus. In view of the small number of passengers using this service to travel to/from Malmesbury who could not use other services, it is proposed that service 91 would no longer run through to Malmesbury, although a small number of connections would be available with service 31 at Little Somerford. Other ways will be sought of providing a cost effective service into Malmesbury from Rodbourne and the Dauntsey Vale villages

We are keen to hear how well you feel these new arrangements would meet your own travel needs and so would be grateful if you could fill in the questionnaire on the back of this leaflet and return it to us in the post by 7 October 2013.
